(Updated April 5, 2019)

PREFACE

The Custody Operations Policy and Procedures Manual will meet or exceed the requirements set forth in Title 15, California Code of Regulations § 1029. The policies in this manual are guidelines that should be followed by Custody Operations staff.

These policies are written with the intent to ensure employees understand the expectation and standard, while allowing deputies a certain amount of discretion. When exercising discretion, deputies must take into consideration the safety and security of staff, inmates, and the jail facility and shall not consider convenience over security.

It is the policy of Custody Operations to provide a manual, which through its organization and construction, is easy to reference, utilize, and understand. The manual is designed for use as a tool that will aid employees in carrying out their duties and assignments in a more uniform and efficient manner.

The Jail Operations Division Commander shall coordinate and conduct annual reviews. The policies are applicable to the Main Jail and all satellite facilities; however, procedures may vary from facility to facility.

A copy of this manual will be maintained on the Sheriff's Office intranet for immediate access. The original will be retained in the Custody Administration Office. The Jail Operations Division Commander must approve all additions and revisions to the manual. Suggestions for revisions may be made by any employee and submitted through the chain of command.

If any statement in this manual is declared illegal, or is found to be inaccurate, inapplicable, or inoperative, it shall not invalidate the manual as a whole, nor any subdivision or section thereof.

No provision or statement is to be construed to mean something other than the plain meaning of the language used and no provision or statement is to be interpreted in a manner contrary to its obvious intent.

It will be the responsibility of Custody Operations personnel to isolate the area immediately after determining that a subject is deceased, or has been removed from the area for purposes of transportation to a hospital, in an effort to save his/her life. All reasonable efforts will be made to prevent any physical evidence from becoming contaminated.

1. For investigative purposes, information contained within the Inmate's Custody Record File and medical file will be made available to authorized Santa Barbara County Sheriff's investigative personnel. This procedure applies to those cases where a death or serious injury occurs and the patient-doctor privilege is not compromised.

PREVENTION PLANNING:

Each Facility Commander shall ensure that intermediate level or higher supervisors and managers conduct unannounced rounds to identify and deter staff, volunteers, and contractors from sexual misconduct. These rounds must be conducted during both day shift and night shift if the facility operates during both shifts. These rounds shall be documented on the facility recap. Staff is prohibited from alerting other staff members that these supervisory/managerial rounds are being conducted, unless such announcement is related to the legitimate operational functions of the facility. (28 CFR 115.13)

Inmates shall be able to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Staff of the opposite gender are required to announce their presence when entering an inmate housing unit outside of exigent circumstances and/or routine cell checks. The PREA announcement shall still occur at the beginning of each shift in all modules regardless of gender. (28 CFR 115.15)

Except for exigent circumstances, no inmate shall be placed in any safety cell, observation cell or housing unit without some form of clothing. If it is deemed necessary to remove all clothing, a safety cell smock will be provided. The use of a safety cell smock shall be documented on the log and/or on the module recap. The shift commander shall be notified of the use of a safety cell smock.

The agency shall make every effort to ensure that inmates with disabilities and/or inmates with limited English language ability are provided with information regarding PREA, including the agency's efforts to prevent, detect and respond to sexual misconduct and with how they can report an instance of sexual misconduct (28 CFR 115.16). Such information will be provided in formats accessible to all inmates, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. (28 CFR 115.33)

All inmates shall be assessed during an intake screening and upon transfer to another facility for their risk of being sexually abused by other inmates or sexually abusive toward other inmates. Intake screening shall ordinarily take place within 72 hours of arrival at the facility. Such assessments shall be conducted using an objective screening instrument. The initial screening shall consider prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing inmates for risk of being sexually abusive. (28 CFR 115.41)

The intake screening shall consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization:

1. Whether the inmate has a mental, physical, or developmental disability;
2. The age of the inmate;
3. The physical build of the inmate;
4. Whether the inmate has previously been incarcerated;
5. Whether the inmate's criminal history is exclusively nonviolent;
6. Whether the inmate has prior convictions for sex offenses against an adult or child;
7. Whether the inmate is or is perceived to be homosexual, bisexual, transgender, intersex, or gender nonconforming;
8. Whether the inmate has previously experienced sexual victimization;
9. The inmate's own perception of vulnerability; and
10. Whether the inmate is detained solely for civil immigration purposes.

An inmate's risk level shall be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness. Inmates may not be disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked during the initial screening process. (28 CFR 115.41)

If during the screening process an inmate indicates they have experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within fourteen (14) days of the intake screening. (28 CFR 115.81)

If the screening indicates a jail or prison inmate has previously been subjected to sexual abuse while incarcerated in another institutional setting, staff shall conduct an investigation documenting the incident. This information shall be referred to the facility or institution identified in the allegation(s) for reporting purposes. (28 CFR 115.22 (b) 1)

If an inmate is identified as previously having perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a mental health practitioner within fourteen (14) days of the intake screening. (28 CFR 115.81) An immediate referral shall be made to the agency PREA coordinator.

Any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by federal, state, or local law. (28 CFR 115.81)

Medical and mental health practitioners shall obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of eighteen (18). (28 CFR 115.81)

SEXUAL ASSAULT AWARENESS:

While some sexual assaults will be easily identified, many will require sensitive investigation to verify that an assault occurred, as most inmates do not want anyone to know they have been assaulted. Jail staff may hear of an inmate being threatened, having been sexually assaulted, or observe unexplained injuries. Other signs may include changes in physical behavior due to injuries, or abrupt personality changes such as withdrawal or suicidal behavior. The following guidelines may be used to provide assistance to a suspected inmate victim:

1. Jail staff should question a suspected inmate victim without jeopardizing the inmate's safety, identity and confidence by removing them from the immediate area.
2. Ask the suspected inmate victim open-ended questions in an attempt to give him/her the opportunity to talk about the assault.
3. If there are no indications of harassment or an assault, advise the inmate that he/she can contact a deputy, medical staff, mental health staff, or the Standing Together to End Sexual Assault Hotline at 1-805-564-3696, in the event of an assault or harassment.
4. If an inmate claims to have been sexually harassed or assaulted, it is important that all contacts with the inmate be professional and nonjudgmental in nature. Advise the inmate of services available and determine what services the inmate needs. It is

important for the inmate's safety and health that this is provided as soon as possible. The incident shall be documented without delay.

REPORTING:

An occurrence of sexual misconduct, which includes sexual assault, sexual abuse, sexual contact, sexual harassment or retaliation may be reported in the following ways: (28 CFR 115.51)

1. To any sworn staff member;
2. To any civilian staff member, including medical staff, mental health staff, clergy, etc.;

4. To any third party, including, but not limited to an agency not affiliated with the Sheriff's Office, such as the Standing Together to End Sexual Assault Hotline at 805-564-3696 from any inmate telephone, free of charge; (28 CFR 115.54)
5. Family, friends, and/or members of the community may anonymously report incidents through the "PREA Hot-Line" by calling 805-681-4077. PREA reporting information is available on-line through the Santa Barbara County Sheriff's Office website www.sbsheriff.org.

at least once per shift. Instructions for utilizing this mailbox shall be posted in the Shift Commander's Office within the Main Jail. All messages will be fully investigated and documented. Should a message be received from another facility, the Shift Commander will notify the supervisor on duty at that facility and they will ensure that a full investigation is completed. Staff, volunteer and contractors shall report all allegations of sexual misconduct against inmates/detainees, so an investigation can be done for all allegations, to determine the validity of the accusation.

The agency shall not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited or exigent circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first responder duties, or hinder the investigation of the inmate's allegations. Under exigent circumstances, when inmate translators are utilized, the capacity and scope of the investigations shall be limited and documented. (28 CFR 115.16 (c) 1)

REPORTING FALSE CLAIMS

Inmates knowingly reporting a false claim or grievance against another inmate, staff member, civilian staff member, or volunteer staff, shall face disciplinary actions in compliance with "Inmate Disciplinary Policy" standards. (P&P 363 - Inmate Discipline) (28 CFR 115.51)

DEPUTY INTERVENTION AND INVESTIGATION FOR SEXUAL ABUSE/ASSAULT:

Investigative steps will vary based upon the timeline of the inmate's abuse/assault. However, regardless of the timeline, a thorough investigation shall be documented and completed in all cases of reported harassment or assault. It is important that all contact with sexual abuse/assault inmates be professional and nonjudgmental.

1. Identify and place the inmate in a secure protective area with no access to running water, until he/she can be brought to the medical treatment room. Request medical staff to respond immediately.
2. Notify your immediate shift supervisor. Secure the crime scene and ask for assistance. The reporting deputy is in charge of directing the investigation. The sergeant will assign deputies to protect the crime scene; gather witnesses and keep them separated until interviewed; identify and isolate the assailant(s); and any other duties related to the crime.
3. A thorough investigation will be conducted and documented, regardless if the inmate has made a decision to press charges or requests anonymity. The shift supervisor will

The medical staff will perform first aid treatment and refer the inmate to be taken to the hospital for evaluation. Standing Together to End Sexual Assault shall be notified prior to departing to the hospital. Refer to Lexipol § 602.2.2.
5. If the abuse/assault occurred within one-hundred and twenty (120) hours, the inmate is not to shower, wash, drink, eat, change clothing/under garments, or defecate until he/she has been examined at the hospital. The inmate should be asked if he/she has partaken in any of these activities prior to reporting. This information shall be included in the report as well as supplied to the physician. (28 CFR 115.21 (a) 3)
6. The victim has the right to have a sexual assault counselor and a support person of the victim's choosing present at any medical evidentiary or physical examination and interviews. (AB1312 264.2 (b)(1)) A support person may be excluded from a medical evidentiary or physical examination if the custody deputy or medical provider determines that the presence of that individual would be detrimental to the purpose of the examination. (AB1312 264.2 (4)) The support person of the victim's choosing shall adhere to the same rules and guidelines as stated in the SBSO Custody Operation P&P 364 - Inmate Visitation Sect.4(1)(3)(4) Personal Visitor Rules. The Shift Commander or designee can deny a support person if said person is deemed to be a detriment to examinations or poses a threat to the safety and security of the facility.
7. The investigating deputy, or supervisor, will ensure that the victim is offered access to a forensic medical examination, without cost to the inmate. The department shall provide a coordinated response effort by initiating the services of the S.A.R.T. unit with implied consent from the involved parties. All forensic medical examinations will be conducted by Sexual Assault Forensic Examiners (SAFE) or Sexual Assault Nurse Examiners (SANE) when possible. If SAFE or SANE cannot be made available, the examination can be performed by other qualified medical practitioners. The agency shall document its efforts to provide SAFE or SANE examinations. (28 CFR 115.21 (c) 2; 28 CFR 115.21 (c) 3; 28 CFR 115.21 (c) 4; 28 CFR 115.21 (c) 5; 28 CFR 115.65)

Collect all the inmate's clothing for evidence by separating each piece of clothing in paper bags, marking each bag for future identification. Provide the inmate a change of clothing for the return trip to the jail. (28 CFR 115.21 (a) 3).
11. While at the hospital, you must obtain the attending physician's identifying information for your report. The investigating deputy should also get the physicians medical opinion regarding the injuries and assault, as this is imperative to the investigation.
12. The investigating deputy, or supervisor, will ensure that the victim is offered access to a victim advocate. If the inmate requests a victim advocate, they are to be permitted to be with the inmate during the forensic medical exam and throughout the investigation process. The advocate's role during this process is to provide emotional support, crisis intervention, information, and referrals. (28 CFR 115.21).

I. PURPOSE:

These guidelines have been prepared to assist deputies in their initial response to incidents involving explosives, explosive devices, explosion/bombing incidents, and bomb threats. Under no circumstances should these guidelines be interpreted as compromising the safety of first responders or the public. When confronted with an incident involving explosives, safety shall always be the primary consideration. When in doubt concerning an unknown device/item, summon assistance from the Bomb Squad.

outside the facility. The IC will take available personnel and conduct a search of the jail lobby and first floor, including the public restrooms and all other areas outside of security. A search of the area immediately surrounding the building will be conducted next. At the discretion of the IC, the search may be broadened to include the basement visiting area, restrooms, and any other areas deemed necessary.

5. The IC may request, through the Dispatch Center, that two patrol cars be dispatched to the jail. One unit is to remain at the entrance to the jail at County Road. The second unit will be parked at the far end of the parking area, to remain there in the event the unit's radio is needed for communication purposes and/or Command Post.
6. Upon being notified of the bomb threat, the Incident Commander will evaluate the request, if deemed necessary, have fire and rescue respond, and stand by in the event they are needed.
7. When the IC is satisfied that the facility is secure, he/she will announce, via the Main Control Room, that the emergency is over and place the jail back into normal operation. The IC will cause an incident report to be written. The IC will notify the Dispatch Center and have them release the patrol cars from their posts and notify them that it is clear.

2. Searchers: In searching the facility, look for anything that is unusual. Look for anything that does not appear as though it should be there and in the event that you should discover something, **do not move or tamper with the device**. Notify the Shift Commander immediately.
3. Shift Commander: These procedures may be modified to fit the incident or situation at hand.

III. DEFINITIONS:

IV. PROCEDURES:

FIRE:

Santa Barbara County Sheriff's Office
Custody Operations – Policy and Procedures Manual

CHAPTER 2 ADMINISTRATIVE	222. Fire Suppression/Natural Disaster and Evacuation Plan	
Page: 2 of 6	Revision Date: 1/2017	Review Date: 1/2018

Fire is the single most life-threatening situation that can happen in a jail. Statistics show that death occurs not from the flames but from smoke inhalation. Deputies should remember the following:

1. Locations of the Self-Contained Breathing Apparatus (SCBA);
2. Stay close to the floor. There is less heat and smoke close to the floor;
3. Keep control of your keys; and
4. When in thick smoke, keep one hand in contact with the wall at all times. A wall will lead you to a door.

When a fire and/or smoke is discovered, the deputy(s) will notify the Main Jail Control Room (MCR) immediately, indicating the type of fire, location, and assistance needed. MCR will contact the Dispatch Center immediately to report the fire.

If the fire can be controlled by the use of an extinguisher or the fire hoses in the area, this action will be taken first. Consideration must be given to the fire's location (in or out of the security area) and that proper security is provided when necessary.

MCR will send additional deputies to the location to assist. The Shift Commander should be advised, but prime consideration should be to controlling the fire.

The deputy in charge of fire control will be the deputy who discovered the fire or the deputy assigned to the area or module involved. The deputy shall direct assistance unless relieved by supervisor or command personnel.

NOTE: During the emergency, and until announced by the MCR deputy, there will be no unauthorized movement within the jail by any personnel or inmates. If it becomes necessary for civilian personnel to evacuate, the Shift Commander will assign a deputy to escort the employees out of the facility.

The MCR deputy's primary responsibility during a fire, or other emergency, is the security of the jail and directing of assistance to the involved area. MCR will also be the designated command post with the Jail Operations supervisor and Fire Captain on scene.

The Fire Department is familiar with the fire suppression features of the jail but not the interior layout. Therefore, the Central Module Officer (CMO) and the Kitchen Deputy (KD) Post are not to respond to the fire, as their key sets may be needed for general interior perimeter

security and to assist the Fire Department. The CMO, KD, or other deputy designated by the Shift Commander will respond to the related entrance door to assist the Fire Department.

The Fire Department units responding can enter the jail facility from the following areas, depending on the location of the fire:

1. Lower Levels – the door to the kitchen area off the loading dock on the West Side or the entrance to staff dining, depending on the location of the fire.
2. Northwest – Door leading from outside through the visitation lobby.
3. Ground Level – Access to the East, Central and West module can be gained through the 86 door or through the bus hallway.

EVACUATION:

1. In the event evacuation of the jail or a module becomes necessary, the security steps previously outlined will be implemented.
2. The Jail Operations Lieutenant, Shift Commander or designee shall coordinate the evacuation process. All radio traffic will be restricted.
3. Inmates shall be moved from their modules to the Main Jail exercise yard in an orderly manner, keeping confusion and talking to a minimum.
4. When moving inmates through a smoke filled, area they will be instructed to keep one hand in contact with the wall at all times.
5. The Shift Commander shall make sure that a deputy is assigned to the tower prior to moving inmates into the exercise yard.
6. The MCR deputy will notify the Dispatch Center and request assistance from Patrol for extra security of the outer perimeter.
7. Should it become necessary to evacuate the exercise yard, the inmates should be moved to the parking area within the outer security fence. Prior to moving the inmates, the Reception Control Officer (RCO) shall be notified not to open the receiving gate for any vehicles other than the Fire Department and emergency service vehicles.

8. If a portion of the jail is deemed uninhabitable, the Jail Operations Division Commander or designee will determine alternative housing by requesting the assistance of local, state or federal detention facilities.

NOTE: A count will be performed immediately after assembly at an evacuation point; all inmates shall be accounted for by conducting a formal count immediately after returning to their housing unit after any evacuation.

EARTHQUAKES:

During an earthquake, evacuation procedures would be the same as outlined above. Due to the construction of the jail facility, there would be more safety for the inmates within the modules than anywhere else, absent any fires.

EMERGENCY EQUIPMENT:

A locker containing equipment needed in emergencies is kept outside of the security perimeter. The locker is to be kept locked at all times with a key kept in the Key Box. An additional key is located in a lock box in the Patrol Sergeant's office at Headquarters. The Administrative Professional in Custody Administration also has a key, which is stored in the key cabinet on the credenza. The locker will be periodically inspected and documented by the Special Operations Response Team (SORT). The locker contains the following items:

1. 1,000 flex cuffs;
2. Grooved joint pliers;
3. 18 flashlights, with extra bulbs;
4. Bolt cutters;
5. Cutting pliers;
6. 12" adjustable wrench;
7. 18" pipe wrench;

EMERGENCY UTILITY SHUT-OFF: (Refer to [222. Emergency Utility Shut-Offs.doc](#))

MCR will turn off air circulators for the Main Jail. MCR deputy will note time of shut-down. The location of each emergency shut-off switch for natural gas is kept in the MCR Post Manual. Water shut-off is controlled electronically and is located in the Northwest Control Room.

Each shut-off control valve (or switch) has been painted with fluorescent paint that is easily visible in the dark. Each control valve has a tag affixed to it. When the valve is shut-off in an emergency, the custody personnel who shuts-off the valve is to remove the tag and submit it to the On-Duty Supervisor or person in charge at the time of the emergency. Using the tag system will ensure that the switch or valve has been turned off.

NOTIFICATIONS:

The Custody Lieutenant shall be notified of any fire or other jail emergency, if the Custody Lieutenant is not available, notifications should be made via the chain of command. Refer to [205. Significant Incident Alert Notification List](#).

SYSTEMS TESTING:

Twice a year or when deemed necessary by the Jail Operations Division Commander, fire drills will be conducted. A section or sections of the jail will be evacuated during a simulated fire. The scenario used in the drills will allow for the use and testing of the SCBA, evacuation routes and locations, utility shut downs, and security measures during emergencies.

The Jail Operations Division Commander or designee will schedule these drills and coordinate them with the Santa Barbara County Fire Department.

REPORTING REQUIREMENTS:

All fires, use of equipment and/or the loss of equipment, or other County property must be properly documented in an incident report.

1. Law requires a report of all fires;

2. MCR will notify the Shift Commander.
3. Should an evacuation of a housing area become necessary, the evacuation plan used in case of a fire shall be followed, as outlined in this procedure.
4. Many hazardous materials can give off dangerous fumes and personnel should remember to take appropriate precautions to protect themselves and inmates.

Related Orders: Title 15, CCR Article 11; PC § 4011.2 and 4011.5; NCCHC – J-E-07, P&P 340		

I. PURPOSE:

The purpose of this policy is to establish guidelines for appropriate and adequate health care for inmates held at the Santa Barbara County Jail facilities.

II. POLICY:

Custody Operations contracts medical and mental health care services through a Health Care Services Provider. These services are offered within the confines of the Sheriff's Office jail facilities and are subject to all rules and regulations as described in the California Penal Code, Title 15 of the California Code of Regulations, and the National Commission on Correctional Health Care (NCCHC).

Inmates may request to visit their own personal physician by following the Inmate Physician Appointment protocol ([240 - Inmate Physician Appointments.doc](#)).

III. DEFINITIONS:

Sick-Call Request Form (CO-1067) – Document that is produced by Custody Operations and is used by inmates to request to see the doctor or nurse.

Health Care Maintenance – Requires health maintenance visit within an inmate's second anniversary and reasonable intervals thereafter.

IV. PROCEDURES:

HEALTH CARE REQUESTS:

To receive medical or mental health care, an inmate can submit a Sick-Call Request form to be placed on the sick-call list. The forms are available in each housing unit for this purpose. Medical staff will collect completed forms. The Sick-Call Request form is then triaged by a nurse. If the condition requires immediate attention and care, a nurse will see the inmate as soon as possible. If the condition does not require immediate attention, the inmate's name will be scheduled for the next available Clinician's sick-call. Sick-call is conducted daily; a doctor is available twenty-four hours a day, seven days a week, by telephone for consultation, and on-site emergencies

as needed. A nurse may triage inmates on request without a Sick-Call Request form. There is twenty-four (24) hour nursing coverage at the Main Jail. Dental services are available at a minimum of two (2) days per week.

HEALTHCARE REIMBURSEMENT:

The Sheriff is authorized to charge a fee in the amount of three dollars (\$3.00) for each inmate-initiated medical visit of an inmate confined in the County Jail, per Penal Code § 4011.2(a) Notwithstanding § 4011.1.

1. The fee shall be charged to the Inmate's Trust Account (see P&P 340 for further processing procedures). If the inmate has no money in his/her Inmate Trust Account, there shall be no charge for the medical visit.
2. An inmate shall not be denied medical care because of a lack of funds in his/her Inmate Trust Account.
3. The medical provider may waive the fee for any inmate-initiated treatment and shall waive the fee in any life-threatening or emergency situation, defined as those health services required for alleviation of severe pain or for immediate diagnosis and treatment of unforeseen medical conditions that if not immediately diagnosed and treated could lead to disability or death.
4. Follow-up medical visits at the direction of the medical staff shall not be charged to the inmate.
5. All currency received should be forwarded to the Sheriff's Business Office.

INTAKE MEDICAL SCREENING:

Intake Medical Screening at receiving is used to obtain important information about every new inmate's medical and mental health needs to ensure they are adequately addressed. The information is also beneficial because it enables Custody Operations to care for the safety and welfare of other inmates and jail staff.

It is the responsibility of the receiving Registered Nurse (RN) to conduct the Intake Medical Screening form on every new inmate. This includes those people who are remanded in court. If the RN is unable to complete the form, the receiving deputy completes the form based on visual observation of the inmate and on the inmate's answers to specific questions. Once completed, the receiving deputy will inform the RN. The RN will review the completed form and follow-up with the inmate.

For inmates undergoing prolonged incarceration, an age appropriate and risk factor based health maintenance visit shall take place within the inmate's first anniversary of incarceration. The specific components of the health maintenance examinations shall be determined by the responsible physician based on the age, gender, and health of the inmate. Thereafter, the health maintenance examinations shall be repeated at reasonable intervals as determined by the responsible physician.

EMERGENCY MEDICAL TREATMENT:

It may be necessary for an inmate to be removed from the Main Jail and transported to a local hospital or clinic for treatment, as authorized under Penal Code § 4011.5 (a). If a sheriff or jailer determines that a prisoner in a county jail or a city jail under his or her charge is in need of immediate medical or hospital care, and that the health and welfare of the prisoner will be injuriously affected unless the prisoner is forthwith removed to a hospital, the sheriff or jailer may authorize the immediate removal of the prisoner under guard to a hospital, without first obtaining a court order as provided in Section 4011.

REQUESTS FOR SPECIAL MEALS:

Special meal requests will not be accommodated unless there is a legitimate medical or religious need. The jail's need to provide low cost meals is a legitimate penological concern that cannot be overcome unless the inmate has a valid first amendment (i.e. religious) or medical necessity.

Inmates requesting a special diet will submit an Inmate Request Form (SH-219) to the Compliance Sergeant. If it is based on a medical concern, the inmate will be instructed to submit a Sick-Call Request form and be examined by the doctor. If it is a legitimate medical necessity, the doctor will notify the Compliance Sergeant who will notify the kitchen and document approval in the Notes section in JMS.

Issued By:  4973 Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: Title 15, CCR § 1219; WIC § 5150; NCCHC-J-G-05		

I. PURPOSE:

To provide a comprehensive suicide prevention program within the jail by identifying those inmates who may be suicidal and have them evaluated by mental health staff as soon as possible.

II. POLICY:

Deputies will receive training on suicide prevention initially during the Custody Deputy Academy. Additional training is provided periodically through the Training Bureau and may be in conjunction with the Crisis Intervention Team (CIT).

Custody Deputies will be educated on the signs and symptoms of potential suicide risk and react appropriately. In all attempt suicides, or successful suicides, deputies are to be aware of and follow proper first aid, Cardio-Pulmonary Resuscitation (CPR), and emergency procedures.

III. DEFINITIONS:

IV. PROCEDURES:

IDENTIFICATION:

The first step in suicide prevention is the Intake Medical Screening process that takes place at intake. The Registered Nurse (RN) will ask the inmate a series of questions that, based on the responses, are intended to identify an inmate that may be suicidal. The RN will note anything observed that could indicate suicidal tendencies, notify the receiving deputy if appropriate, and notify the jail's mental health professionals.

ASSESSMENT:

If a deputy feels that a particular inmate is a suicide risk, mental health staff and the on-duty Supervisor are to be notified and an evaluation of the inmate requested. Once the mental health worker has completed an evaluation of the inmate, jail staff will consider the recommendations that mental health makes regarding precautions and housing.

Custody Operations – Policy and Procedures Manual

CHAPTER 2 ADMINISTRATIVE	242. Suicide Prevention	
Page: 2 of 2	Revision Date: 1/2017	Review Date: 1/2019

MONITORING:

Whenever possible, suicidal inmates will not be left alone within the facility. If placed alone in a camera cell, a log will be initiated, documenting the inmate's status twice, every thirty (30) minutes, in approximately fifteen (15) minute increments by using direct visual observation.

HOUSING:

If the Intake Medical Screening assessment indicates or the deputy(ies) feels an inmate may have suicidal tendencies, the inmate should not be placed in a single person cell. If the inmate exhibits behavior indicating an immediate danger to themselves or others, the inmate will be placed in a safety cell. The procedures for use of the safety cell will be adhered to and a Safety Cell Report shall be written.

REFERRAL:

After evaluation by mental health staff and South County Crisis Services (SCCS), the suicidal inmate may be transferred to the Santa Barbara County Psychiatric Health Facility (PHF) for treatment, per Welfare and Institution Code § 5150. If after twelve (12) hours the inmate is still in the safety cell, SCCS is to be called to conduct an evaluation even if the inmate's behavior does not meet the criteria of a WIC § 5150.

COMMUNICATION:

During the receiving process, if an inmate indicates they may be a suicide risk, the receiving deputy will notify the on duty medical and/or mental health staff via radio, who will respond to further evaluate the inmate. Mental health also receives information from the Classification Unit on a regular basis regarding housing assignments for mental health clients.

NOTIFICATIONS:

In the event of a jail suicide or attempt suicide involving serious injury, the notification procedure in the policy, [205. Significant Incident Alert Notification List](#), will be followed.

REVIEW:

The Criminal Investigations Bureau or Risk Assessment Unit, as deemed appropriate shall investigate all jail suicides.

I. PURPOSE:

The intent of this policy is that inmates with suspected mental disorders, who are a potential danger to themselves or others or appear to be gravely disabled, are promptly evaluated and, if clinically indicated, transferred to an appropriate psychiatric treatment facility. Although mental disorders are often evident at the time of initial booking, inmates may become symptomatic at any stage of incarceration. Regardless of the time of presentation, significantly disordered behavior should be evaluated promptly, within twenty-four (24) hours at the latest.

Developmental disabilities may be due to mental retardation, cerebral palsy, epilepsy, autism or a combination of disabilities. Regardless of the cause, inmates who have, or are suspected of having, developmental disabilities should be separated from the general population pending assessment to prevent their being victimized by potential predators.

II. POLICY:

Custody Operations will provide special care and housing for inmates who have physical and/or mental disabilities.

An additional mental health screening will be performed on women who have given birth within the past year and are charged with murder or attempted murder of their infants. Such screening will be performed at intake by a Registered Nurse (RN) and if the assessment indicates postpartum psychosis a referral for further evaluation will be made.

III. DEFINITIONS:

People with disabilities – Includes, but is not limited to, persons with a physical or mental impairment that substantially limits one or more of their major life activities or those persons with a record of such impairment or perceived impairment that does not include substance use disorders resulting from current illegal use of a controlled substance.

1. Have medical staff respond and conduct the Intake Medical Screening process to evaluate the person for medical and/or mental health referral;
2. If the inmate is pre-trial, does not post bail, or is not eligible for citation release, notify Pre-trial Services and request an immediate evaluation for release;
3. If the inmate is not released, notify the Jail Operations Division Commander. The Jail Operations Division Commander or designee, will review the inmate's case with the health care provider's Administrator and mental health staff for possible alternate housing;
4. A physician's opinion will be secured within twenty-four (24) hours of identification or at the next daily Sick-Call;
5. The Classification Unit will assign appropriate housing with consideration to those inmates with physical and/or mental disabilities and/or special needs;
6. Segregate developmentally disabled inmates for their own safety;
7. If the inmate is a Tri-County Regional Center patient, contact Tri-County Regional Center in Oxnard at 1-805-485-3177 or the Santa Barbara office at 1-805-962-7881, and advise them when a developmentally disabled inmate is in our custody. This notification must occur within twenty-four (24) hours of the inmate's custody;
8. Issue extra bedding and/or clothing items as appropriate; and
9. Ensure specific documentation is noted in the "Person Alert" section of JMS.

Related Orders: Title 15, CCR § 1051 and 1206.5; SBCPHD Online - Santa Barbara County Public Health Department & Questions and Answers About TB; NCCHC-J-B-01		

I. PURPOSE:

Jail populations may have higher incidences of infectious diseases than the population at large. Diseases which inmates may be infected with include but are not limited to the following: tuberculosis (TB); sexually transmitted diseases; hepatitis; HIV/AIDS; measles, meningitis; MRSA, and others that pose serious management issues for both custody and health care staff. Because there are wide ranges of communicable diseases that can affect inmate populations and because incidence rates vary among jurisdictions, this policy directs Custody Operations with a plan that responds to infectious diseases most prevalent to local areas. This policy is established to provide guidelines for early identification, treatment, education and prevention of the spread of communicable disease in a custody setting. Part of this policy is to provide the following:

1. Types of communicable diseases to be reported;
2. Persons who shall receive the medical reports;
3. Sharing of medical information with inmates and custody staff;
4. Medical procedures required to identify the presence of disease(s) and lessen the risk of exposure to others;
5. Medical confidentiality requirements;
6. Housing considerations based upon behavior, medical needs, and safety of the affected inmates;
7. Provisions for inmate consent that address the limits of confidentiality; and
8. Reporting and appropriate action upon the possible exposure of custody staff to a communicable disease.

II. POLICY:

Custody staff will work cooperatively with medical staff to establish development and implementation of an Infection Control Program. The program shall include, but not limited to, concurrent surveillance of inmates and staff, prevention techniques and treating/reporting of infections in accordance with local and state laws.

New arrests will be screened by medical staff upon intake to determine any potential for outbreaks by using the Intake Medical Screening form. All efforts will be made to identify any potential for communicable disease.

III. DEFINITIONS:

Infection Control Program – Includes procedures for identification, treatment, isolation, surveillance, immunization (when applicable), prevention, education, and follow-up.

Local Health Officer – Licensed physician who is appointed pursuant to Health & Safety Code § 101000 to carry out duly authorized orders and statutes related to public health within their jurisdiction.

Negative Airflow Cells – C-7 & C-8, Northwest cells 21-24, and all of new East addition (EI-25 through EI-38).

IV. PROCEDURES:

All inmates will be screened at the time of booking by a Registered Nurse (RN), using the Intake Medical Screening Form.

1. Any inmate suspected of having any infectious or communicable disease noted above, will immediately be reported to appropriate medical staff. Depending on the type of disease and until confirmation of the problem, in addition to accordance with appropriate recommendations, the inmate may be housed in a single person cell or negative airflow cell.
2. Should an inmate exhibit or verbalize any known airborne communicable disease, the deputies are to immediately use precautions by placing a mask on the inmate and use universal precautions.
 - a. If an inmate is placed in a cell, a warning sign will be posted on the door for all other staff to view.
 - b. The on-duty Jail Operations Lieutenant will be notified and will initiate the following:

Custody Operations – Policy and Procedures Manual

CHAPTER 2 ADMINISTRATIVE	244. Communicable Diseases	
Page: 3 of 6	Revision Date: 2/2019	Review Date: 1/2020

- i. Consult with the health care provider's Administrator. The health care provider's Administrator will consult with the Local Health Officer/Public Health Officer on all inmates with reportable illnesses and whenever a condition of multiple spread occurs. Contact:

Disease Control and Prevention Manager
Public Health Disease Control
345 Camino Del Remedio
Santa Barbara, CA 93110
(805) 681-5121 or (805) 681-8286

3. If an individual is brought to the jail on a misdemeanor warrant for Health & Safety Code § 3285, or during the Intake Medical Screening process exhibits symptoms of active TB (excessive coughing, fever, coughing up blood, etc.), or discloses any active communicable disease, deputies will take universal precautions immediately and follow the above procedures.
 - a. For TB: If an inmate attempts to post bail, is eligible for citation release, or is due to be released through some other legal process, the Public Health Department, Disease Control and Prevention is to be contacted at the number above **prior to release**.

NEGATIVE AIRFLOW CELLS PROCEDURES:

The magnehelic gauges located outside the housing area to any negative airflow cell will be checked, once each shift, by the module deputy to ensure these cells remain in a negative airflow state. The gauges indicate the difference in pressure between the cell (identified by number) and the outside corridor.

Deputies shall follow the following procedures when checking the status of negative airflow cells:

1. Check the gauge reading:
 - b. For magnehelic gauges with ranges from 0 – 0.50, the gauge should read between 0.1 and 0.4.
 - c. For magnehelic gauges with ranges from 0 – 1.0, the gauge should read between 0.2 and 0.8.
2. If the range of any gauge is not within the prescribed range listed above, the deputy will ensure that all doors to the cell and living area are securely closed and check the gauge again after allowing the gauge to reset (approximately 3-5 minutes). If this process did not rectify the gauge reading, the deputy will move on to step 3.

Santa Barbara County Sheriff's Office
Custody Operations – Policy and Procedures Manual

CHAPTER 2 ADMINISTRATIVE	244. Communicable Diseases	
Page: 4 of 6	Revision Date: 2/2019	Review Date: 1/2020

3. The deputy will inspect the interior of the cell whose gauge is out of range to attempt to locate any blockages associated with the air return or supply vents and will have the cell and/or vents cleaned to remove any material which may be interfering with negative airflow.

If the above steps do not rectify the gauge readings, the deputy will submit a work order documenting the gauge range discrepancy and will not utilize this cell for any inmates necessitating negative airflow precautions until the gauge reading is within normal ranges again and/or has been repaired.

These checks and any noted discrepancies will be documented on the Module Recap.

CONTACT INVESTIGATION FOR TB:

A Contact Investigation is the process to identify persons who have been exposed to a newly diagnosed case of TB or other communicable disease. Effective contact investigations require good teamwork.

In the event a deputy discovers an inmate has a communicable disease, the following protocol will be followed. **It is very important that this be a timely response:**

1. The deputy will notify medical staff immediately and isolate the inmate. Remember to **protect yourself.**
2. The on-duty Supervisor will be immediately notified.
3. Medical staff will confirm the disease as soon as possible to determine the level of contagiousness. Medical staff will notify the on-duty Supervisor.
4. If it is determined that the inmate is contagious, the on-duty Supervisor will initiate a "Contact Investigation" to assist the Public Health Department.
5. The Jail Operations Lieutenant is responsible for notifying support staff, contractors or any other related department that may have been exposed. This should be done in a timely fashion.
6. The goal of a contact investigation is to identify all persons who have been in contact with the inmate or source. The inmate may not be the original source.

Custody Operations – Policy and Procedures Manual

Page: 5 of 6	Revision Date: 2/2019	Review Date: 1/2020

7. The on-duty Supervisor will provide medical staff and the Public Health Department with the names of all the inmates that were housed with the source since intake and the names of the deputies that may have been exposed.
8. The Contracts Management Lieutenant will work in conjunction with medical staff and the Public Health Department to identify which contacts are close and which are high risk.

Custody Operations, Custody Support, our health care provider and the Public Health Department will work in conjunction and cooperatively to make notification of all potential contacts and advise for treatment and containment.

ECTOPARASITE DECONTAMINATION/SEGREGATION:

If an inmate is identified by medical staff as having an ectoparasitic infestation, the following procedures shall be followed, unless specifically modified by medical staff:

1. The deputy responsible for supervising the inmate will initiate the forty-eight (48) hour medical observation log.
2. Initiate medical segregation of inmate(s) identified as having an ectoparasitic infestation to prevent the infestation from spreading. This medical segregation can occur in a single or two-person cell as long as inmates who are not infected are not exposed. If multiple inmates are identified with the same infestation, they can remain housed together. All other inmates housed with an individual who has been diagnosed with an infestation shall be screened by medical staff as soon as possible.
3. Inmate(s) shall be instructed to shower in warm water and will be given access to the shower if needed.
4. Inmate(s) will be issued replacement clothing, linen, sandals and a replacement mattress.
 - a. The inmate(s) mattress shall be taken to laundry and disinfected with permethrin spray and left to air dry for approximately one (1) hour before being re-issued.
 - b. The inmate(s) clothing, linen and sandals shall be placed in a yellow precautions bag and laundered separately from other linens on the hottest temperature setting by laundry workers.
5. Any cell or location the inmate has been housed in or will be housed in will be thoroughly cleaned and cleansed with permethrin spray. Staff or inmate workers cleaning each cell

shall be provided with appropriate protective equipment to include a gown and N-95 mask.

6. Inmate will be administered medication as appropriate by medical staff.
7. Medical isolation timeline of forty-eight (48) hours will begin, unless specifically modified by medical staff.
8. After forty-eight (48) hours have transpired, the deputy will repeat steps 2-5 above and return the inmate to their original cell (medical segregation is no longer required, unless specifically indicated by medical staff)
9. After one week has transpired, the deputy will repeat steps 3-5 above (medical segregation is not required, unless specifically indicated by medical staff).

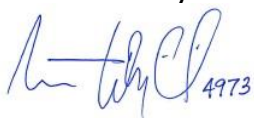

Once completed, the forty-eight (48) hour medical observation log will be returned to medical.

REPORTING:

The health care provider will be responsible for ensuring required confidentiality reporting is enforced. If any custody staff is exposed, they will immediately notify their supervisor for further action.

The health care provider will also report all mandatory reportable diseases as listed by the County of Santa Barbara Public Health Department. This list is provided to the health care provider and the Contracts Management Lieutenant from the Public Health Department.

CHAPTER 2 ADMINISTRATIVE	245. Automated External Defibrillators (AED)	
Page 1 of 4	Revision Date: 1/2017	Review Date: 1/2019
Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: N/A		

I. PURPOSE:

The purpose of this policy is to provide staff the information needed to properly utilize the Automated External Defibrillator (AED).

II. POLICY:

Sheriff's Office employees shall serve as supplemental resources to the Emergency Medical Services (EMS) System delivery of care in the event of a sudden cardiac arrest situation.

III. DEFINITIONS:

IV. PROCEDURES:

DEPLOYMENT:

AED trained Sheriff's Office employees may be present at or in the vicinity of a critical incident involving possible cardiac arrest patients. Once on scene, the employee shall start rescue measures if the patient is suffering from a possible cardiac arrest. This shall only be done if other EMS System personnel (i.e., health care provider staff, Fire Department personnel or ambulance personnel/paramedics), are not at the scene at the time of the employee's arrival.

BASIC PROCEDURE FOR FIRST RESPONDER DEFIBRILLATION:

Confirm the patient is unconscious, no pulse, and not breathing, or unconscious, no pulse with agonal respiration AND that the patient is an adult or child weighing over 90 pounds.

IF TRAUMA EXISTS:

Prepare patient for immediate transport. As time permits, prior to paramedic arrival, initiate defibrillation protocol.

1. Initiate Cardio-Pulmonary Resuscitation (CPR) until the AED is attached to patient.

Santa Barbara County Sheriff's Office
Custody Operations – Policy and Procedures Manual

CHAPTER 2 ADMINISTRATIVE	245. Automated External Defibrillators (AED)	
Page: 2 of 4	Revision Date: 1/2017	Review Date: 1/2019

2. The AED will audibly instruct the rescuer to place the AED electrode pads on the patient's bare chest. One electrode pad will be placed under the right collarbone and the other on the left side of the chest below the left breast. If the patient has thick chest hair, it may be necessary to shave areas where the electrode pads can be placed.
3. The AED will automatically analyze the heart rhythm. This process occurs in four-second intervals. Do not touch the patient while the AED is analyzing the heart rhythm.
4. The AED will detect noise artifact in the ECG, noise could be introduced by excessive moving of the patient or electronic devices from external sources like cellular phones and radio telephones. The AED will prompt the rescuer "ANALYSIS INTERRUPTED, STOP PATIENT MOTION." Remove other electronic devices within a fifteen (15) feet radius. The AED will then proceed to reanalyze the rhythm.

UN-SHOCKABLE RHYTHM:

1. If the victim's heart rhythm is NOT in a shockable state, the AED will prompt "CHECK FOR SIGNS OF CIRCULATION. If no circulation, START CPR." If the rescuer hears the above message then the rescuer needs to check for a pulse and respirations. If absent, perform one minute of CPR.
2. After one minute of CPR, check for a pulse and respirations. If absent, the AED will analyze the heart rhythm again and audibly state "DO NOT TOUCH PATIENT, ANALYZING RHYTHM."
3. If the patient remains in a non-shockable rhythm, pulse less and non-breathing, continue CPR until the arrival of EMS personnel.

SHOCKABLE RHYTHM:

1. If the patient is in a shockable cardiac rhythm, the AED will audibly tell the rescuer(s) "SHOCK ADVISED", "STAND CLEAR, PUSH THE FLASHING BUTTON TO DELIVER SHOCK."
2. Clear bystanders and rescuer(s) away from the patient.
3. Press the flashing button to deliver shock.

Custody Operations – Policy and Procedures Manual

CHAPTER 2 ADMINISTRATIVE	245. Automated External Defibrillators (AED)	
Page: 3 of 4	Revision Date: 1/2017	Review Date: 1/2019

4. After delivering the shock, the AED will analyze the heart rhythm automatically, audibly telling the rescuer, "DO NOT TOUCH THE PATIENT, ANALYZING RHYTHM."
5. If the patient remains in a shockable rhythm (ventricular fibrillation or tachycardia), the AED will tell the rescuer, "SHOCK ADVISED, CHARGING." After the AED is fully charged and ready to deliver a shock, the AED will audibly tell the rescuer, "STAND CLEAR, PUSH FLASHING BUTTON TO DELIVER SHOCK" continue to deliver defibrillate shocks.
6. After three shocks, the AED will audibly prompt the rescuer "CHECK FOR SIGNS OF CIRCULATION, IF NO CIRCULATION, START CPR." If the patient remains in a shockable rhythm, perform one minute of CPR.
7. If after any of the shocks the patient exhibits a pulse with or without respiration maintain airway and assist ventilation as needed.
8. If the patient returns to a pulse less state, check pulse and respiration and allow the AED to analyze the patient.
9. The sequence is three shocks or one "no shock advised" followed by one minute of CPR, and then repeated.

CHAIN OF COMMAND:

1. Sheriff's Office AED trained employee will relinquish the patient to Fire Department personnel, ambulance personnel/paramedics and/or any other EMS personnel who arrive on scene. This transfer of the patient will be completed at the first opportunity available and/or under the direction of medical staff on scene.
2. After the rescuer has been relieved by on scene medical staff, the rescuer will determine if he/she needs to assist the medical staff on scene and notify his/her supervisor as soon as practical.

REPORTING:

1. After any incident which involves the use of an AED by an AED trained Sheriff's Office employee, an Incident Report will be completed detailing the circumstances under which the AED was used. Copies of these reports will be sent to the Department AED Quality Control Coordinator for review. All reports will then be forwarded to the Training Bureau.

2. After an AED is used on a patient, the unit is to be delivered to the department's Quality Control Coordinator who will download the information collected by the AED regarding the patient's heart rhythm. The department AED Quality Control Coordinator will incorporate the data received from the AED into their report.

3. When the AED is returned to the Sheriff's Office from the department's Quality Control Coordinator, the receiving deputy/staff member will ensure that the AED is properly cleaned and visually inspected before placing it back into the Sheriff's Office vehicle or storage location.

4. When the yearly inventory of AED's is conducted, an inspection of all AED's will be completed. This inspection will included a visual inspection, functionality inspection, and battery inspection. The inspection will be completed by the Sergeant of Custody Maintenance and custody's healthcare services provider; preferably the Healthcare Services Administrator. The inspection will be documented in memorandum format and provided to the respective Lieutenant(s) for review.

Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: Title 15, CCR § 1040		

I. PURPOSE:

The purpose of the policy is to ensure inmate counts are conducted in a timely and accurate manner.

II. POLICY:

Custody Operations shall conduct two (2) separate counts: the formal or scheduled count, conducted twice in each twenty-four (24) hour period, and the unscheduled or informal count which can be conducted at any time.

III. DEFINITIONS:

Formal Count – At this time each inmate will be identified by armband and accounted for using the Housing Roster. Each shift will be responsible for conducting a formal count. A positive verification must be made that all inmates are present and accounted for and physical observation of the condition of each inmate.

Informal Count – This count is conducted at various times throughout a twenty-four (24) hour period, as often as possible. An informal count is performed by conducting a walk-through of the cell and inmate workers' area, observing and counting the inmates.

Housing Roster– Any computer-generated roster listing the names and identifying information of inmates housed within any of the Santa Barbara County Jail facilities. Housing rosters may or may not contain inmate photos.

IV. PROCEDURES:

Formal counts will be conducted once each shift. During count, inmate movement will be limited to emergencies and/or to accommodate the transport of inmates to court. Completed count sheets will be verified and discrepancies resolved. Copies of the count sheets shall be retained in the daily recap.

When conducting a formal count, the deputy shall use and compare the inmate's wristband and face to ensure they match. During the count, deputies are to ensure all inmates in Restrictive Housing units (Northwest, East Addition, and IRC) are in their assigned cell.

Inmates must be seen and identified. When counting inmates, the deputy will be certain they see "flesh" in all cases; this includes looking for indications that the inmate may be ill, injured, or signs of having attempted suicide, been involved in an altercation or in need of assistance.

If at any time these procedures cannot be followed, the Shift Commander will be notified immediately. Any action taken that deviates from policy shall be annotated in the module and shift commander recaps.

Classification is separate from any discipline. Jail rule infractions, misconduct, and the resulting disciplinary actions may be considered in classification assignments, housing assignments, and program eligibility.

A classification record will be maintained on each inmate housed in the jail facilities. This record is separate from the inmate's custody records file. Classification records are initiated when the inmate is booked and are maintained for five (5) years after the inmate is released from custody. The classification record includes the following:

1. Interview and placement record, which consists of:
 - a. Initial Custody Assessment Scale and Classification Assessment Questionnaire;
 - b. Alerts and/or Cautions;
 - c. Custody and Housing Level;
 - d. Housing assignments and any changes; and
 - e. Information from the medical and/or mental health staff.
2. Copies of Inmate Disciplinary Reports (IDR);
3. Records of applicable jail incident reports;
4. Criminal history information; and
5. Any other information deemed necessary for safety and security reasons.

CONFIDENTIALITY:

Classification records are confidential, internal administrative documents that are subject to release only by subpoena. Information is not to be released outside the Sheriff's Office without the permission of the Jail Operations Division Commander or designee. Law enforcement access shall be limited to a need-to-know basis as determined by the Programs Unit Lieutenant or the Classification Unit Sergeant.

III. DEFINITIONS:

Criminal history – Records and/or information obtained through the California Law Enforcement Telecommunications System (CLETS).

Gender Nonconforming - Behavior and/or gender expression by an individual that does not match traditional masculine or feminine gender norms.

IV. PROCEDURES:

CLASSIFICATION AT RECEIVING:

The receiving deputy plays an integral role in the inmate classification process. This deputy is the first member of the jail staff to come into contact with the inmate. Many times the receiving deputy may determine that an individual is intoxicated, under the influence of drugs, or mentally disoriented. The deputy shall communicate the appropriate information to the Shift Commander and to the Classification Unit Deputy.

INITIAL CLASSIFICATION INTERVIEW AND ASSESSMENT:

After it has been determined that the inmate will remain in custody and not be released, the inmate will be interviewed by a Classification Unit Deputy. The Classification Unit Deputy will complete the inmate questionnaire, including provisions for the Prison Rape Elimination Act or PREA within seventy-two (72) hours of arrival to the facility. (28 CFR 115.41 (b))

The intake screening shall consider, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (28 CFR 115.41 (c) 1; 28 CFR 115.41 (d); 28 CFR 115.42 (c))

1. Whether the inmate has a mental, physical, or developmental disability;
2. The age of the inmate;
3. The physical build of the inmate;

Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	301. Inmate Classification

4. Whether the inmate has previously been incarcerated;
5. Whether the inmate's criminal history is exclusively nonviolent;
6. Whether the inmate has prior convictions for sex offenses against an adult or child;
7. Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming;
8. Whether the inmate has previously experienced sexual victimization;
9. The inmate's own perception of vulnerability; and
10. Whether the inmate is detained solely for civil immigration purposes.

An inmate's risk level shall be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness. Inmates assigned to involuntary segregated housing units shall only remain in segregated housing until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of thirty (30) days. Inmates may not be disciplined for refusing to answer or for not disclosing complete information in response to questions asked during the initial screening process. (28 CFR 115.41; 28 CFR 115.42 (c) 1)

If the screening indicates that a jail or prison inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate's Classification status is reassessed within thirty (30) days and is offered a follow-up meeting with a medical or mental health practitioner within fourteen (14) days of the intake screening. (28 CFR 115.41 (f); 28 CFR 115.41 (g) 1; 28 CFR 115.81)

If the screening indicates that, a jail or prison inmate has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a mental health practitioner within fourteen (14) days of the intake screening. (28 CFR 115.81) An immediate referral shall be made to the agency PREA coordinator. Standing Together to End Sexual Assault (STESA) Counseling Services shall be offered in addition to services provided by Jail Medical/Mental Health.

Any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and

other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by federal, state, or local law. (28 CFR 115.41 (a) 1; 28 CFR 115.42 (a) 1; 28 CFR 115.42 (b) 1; 28 CFR 115.43 (a) 1; 28 CFR 115.81)

Medical and mental health practitioners shall obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of eighteen (18). (28 CFR 115.81)

During initial intake interview, the Classification Deputy will issue the inmate a Jail Discharge Planning/EM Application with brief summary of conditions.

CLASSIFYING THE INMATE:

The first variable in classification is the inmate's legal status. The Classification Unit Deputy will make a determination as to whether the inmate is:

1. A pre-trial detainee;
2. Sentenced inmate;
3. Sentenced to state prison;
4. Civil inmate only (including SVP);
5. Juvenile;
6. Witness only; or

The Classification Unit Deputy shall initiate a search for information to obtain the following:

1. Criminal history (CII);
2. National criminal history (FBI) or (III);
3. Previous classification records; and
4. Gang affiliations or nicknames.

Page: 6 of 6	Revision Date: 1/2017	Review Date: 1/2018

The above information will be incorporated into the inmate's classification record.

Based on all the information obtained, the Classification Unit Deputy shall assign the inmate an initial classification and housing assignment. (28 CFR 115.43 (d))

Classification assignments and housing decisions continue beyond the initial assessment process. Classification is a continual process that follows the inmate through the entirety of their incarceration and provides avenues for grievances and appeals.

A comprehensive classification plan is maintained in a separate manual.

CHAPTER 3 OPERATIONS	302. Inmate Movement	
Page 1 of 2	Revision Date: 1/2017	Review Date: 1/2018
Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: P&P § 334		

I. PURPOSE:

The purpose of this policy is to ensure the safety and security of inmates and deputies during inmate movement. The security level required for the safe movement of all inmates shall vary according to the inmate's classification.

II. POLICY:

Custody Operations shall ensure that all movement of inmates within the security corridors of the jail is accomplished in a safe, secure, and consistent manner.

III. DEFINITIONS:

Immediate Housing Area – Any single person and two person cells are the occupying inmate's immediate housing area. The secure dayroom of the Restrictive Housing unit is also part of the immediate housing area.

IV. PROCEDURES:

There are two major categories of inmate classification that determine the security level required for each inmate. In addition, any special instructions or requirements noted in the Jail Management System (JMS) should be followed, regardless of their classification or housing. ALL INMATE MOVEMENT WILL BE ESCORTED (with the exception of work crews under supervision).

The following are the two (2) major security categories, and the movement guidelines apply to each:

GENERAL MOVEMENT:

When conducting inmate movements within the Main Jail, one (1) deputy may move up to five (5) inmates. The deputy shall walk behind the inmate(s). If there are more than five (5) inmates, a minimum of two (2) deputies are required to accomplish that movement; one (1) deputy shall take the front or "lead" position and the second deputy will take the rear or

Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	302. Inmate Movement

"follow" position. A movement of fifteen (15) or more inmates outside of their assigned housing module shall require a minimum of three (3) deputies. A collective visual observation of all inmates shall be maintained at all times.

Whenever an inmate is moved from one location to another, the inmate will be fully dressed and wearing one set of issued clothing. Shirts will be tucked in; pants will be worn around the waist and will not be rolled up above the ankles. Inmates shall move in an orderly fashion following the directions of the custody deputy with their hands down at their side. When stopped they will remain facing in the direction of travel-unless otherwise directed. Inmates shall remain silent and in that position until directed to resume walking. In all cases, inmates shall follow the specific instructions of the escorting deputy.

RESTRICTIVE HOUSING:

All Restrictive Housing inmates will be handcuffed to the rear prior to being removed from their cell or other secure area such as a shower. If approved by a supervisor, under unusual circumstances, Restrictive Housing inmates may be handcuffed in the front **and** moved with two (2) deputies.

SPECIAL INSTRUCTIONS:

Some inmates in the Restrictive Housing category may have specific movement requirements noted in JMS. These instructions shall be per inmate, considered direct orders, and must be adhered to under all circumstances. In all cases, these requirements supersede any other guidelines and procedures for inmate movement and must be applied to these designated inmates. These inmates shall not be moved in a group, or with any other inmate under any circumstances.

This policy may be modified only by the Incident Commander during an emergency situation.

CHAPTER 3 OPERATIONS	303. Use of Sobering, Observation, and Transition Cells	
Page 1 of 4	Revision Date: 1/2017	Review Date: 1/2018
Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: Title 15, CCR § 1056; NCCHC-J-G-06		

I. PURPOSE:

The purpose of this policy is to ensure inmates booked into the jail, who are a threat to themselves or others due to their state of impairment, are appropriately housed and monitored. This policy will also be followed for those inmates placed in a sobering cell for medical or mental health observation.

II. POLICY:

Arrestees who appear to be intoxicated and/or unresponsive shall be assessed and screened by medical staff prior to being accepted for booking.

Cells H-9, H-1 and H-2 in the Inmate Reception Center (IRC) will be utilized as sobering/observation cells.

III. DEFINITIONS:

Intoxicated Inmates – Individuals whose mental and physical abilities are impaired because they are under the influence of drugs or alcohol.

Observation Cell – Used for the temporary placement of inmates, who must be monitored closely for either medical or mental health concerns.

Sobering Cell – Utilized for the management and observation of inmates, who are under the influence of any intoxicant to the extent that it temporarily impairs their mental or physical ability to function normally.

Transition Cell – When applicable, H-1 and H-2 have been outfitted to be used as transition cells from safety cells. Transition cells are to be used in-lieu of a safety cell when indicated by our health services provider (medical or mental health).

IV. PROCEDURES:

Sobering Cells:

Santa Barbara County Sheriff's Office
Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	303. Use of Sobering/Observation Cell	
Page: 2 of 4	Revision Date: 1/2017	Review Date: 1/2018

To be placed in a sobering cell, the inmate must be conscious, respond to simple commands, have no difficulty breathing, and not appear to be acutely ill, or have apparent injuries. In order to be allowed to "sober up" in the sobering cell, inmates must be able to respond verbally to stimulation and walk to the cell with minimal assistance. When in doubt about an inmate's suitability for placement in the sobering cell, obtain a medical assessment as soon as possible.

When an inmate is booked into custody on one or more of the following charges: Vehicle Code § 23152(a) and 23152(b), Penal Code § 647(f) or Health & Safety Code § 11550, or is obviously intoxicated, the receiving deputy will evaluate and determine if the inmate should be placed in the sobering cell based on the following criteria:

1. ODOR OF ALCOHOL: Deteriorated, strong, weak, moderate, or absent.
2. SPEECH: Deteriorated, slurred, slowed, or normal.
3. ATTITUDE: Deteriorated, hallucinating, confused, belligerent, cooperative, boisterous, or difficult to waken.
4. WALKING: Deteriorated, falling, staggering, unsteady, slow, swaying, or deliberate.
5. TREMOR: Deteriorated, severe, moderate, or mild.
6. ORIENTATION: Deteriorated, unaware of [location of jail/city], easily distracted [but not confused], able to provide booking information.

Inmates will be placed in the sobering cell as soon as a deputy determines them unable to care for themselves based on the criteria listed above.

Observation Cells:

To be placed in an observation cell, the inmate must be conscious, respond to simple commands, have no difficulty breathing, and not appear to be acutely ill.

Inmates must be placed in an observation cell when they return from the hospital or Santa Barbara County Psychiatric Health Facility (PHF) and cannot be immediately examined by medical staff and/or when requested by medical and mental health staff.

When an inmate is placed into a cell under observation, the following shall occur:

1. An Observation Log will be initiated upon immediate placement into the cell, noting the condition of the inmate;

Santa Barbara County Sheriff's Office
Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	303. Use of Sobering/Observation Cell	
Page: 3 of 4	Revision Date: 1/2017	Review Date: 1/2018

2. Medical staff will be notified and are required to document within the first hour of placement. In no case shall an inmate remain in a sobering cell or observation cell more than six (6) hours without recorded observation by a medical staff person;
3. Intermittent and random, direct visual supervision is the responsibility of the receiving deputy and shall be conducted and logged in writing no less than twice (2x) every thirty (30) minutes;

If an inmate appears to be sleeping during these checks, the deputy should note the position the inmate is in, and that they observe they are breathing by the rise and fall of their chest. If they are in the same position for two (2) or more hours, the deputy shall conduct a physical check to ensure the inmate can be roused, and to determine level of consciousness

4. Deputies will review the condition of inmates placed in sobering cells, noting condition and ability to arouse to determine whether or not they have improved enough to be suitable for release, or movement to other appropriate housing. This check will be indicated on the log;
5. Inmates placed in sobering cells shall be removed from the cell when it has been determined that they are able to continue with processing and with approval from medical staff, when appropriate.
 - a. Inmates placed in observation cells shall be removed when it has been determined by medical or mental health staff the reason for observation no longer exists.

Inmates may be placed in H-1 or H-2 for transition from a safety cell to their respective housing as part of the Safety Cell De-Escalation Plan in [304. Use of Safety Cells](#). The use of these cells is to provide de-escalation services to inmates within zero (0) to twelve (12) hours (and thereafter if applicable) in-lieu of placement in a safety cell with the goal of stabilization and return to regular housing.

As with observation cells and after placing the inmate in the cell, the following shall occur:

1. In no case shall an inmate remain in an transition cell more than six (6) hours without recorded observation by medical staff with the initial observation occurring within the first hour of placement;

Inmates placed in transition cells shall be removed when it has been determined by medical or mental health staff the reason for observation no longer exists.

It is important to have the observation cell cleaned on a regular basis during the retention of an inmate housed in these cells. The inmate should also be permitted to shower at least every other day and receive weekly linen exchanges while housed in this cell.

DOCUMENTATION:

The observation log, [303. Declaration in Support of Safety Cell Use.doc](#) is the official record of the physical checks made on the inmate during retention in a sobering and/or observation cell. This will be posted at the cell and shall contain the following information about the inmate. It is imperative that any deviations to the observation log be explained and recorded on the log.

1. Name;
2. Date of birth;
3. Booking number (if available);
4. Date and time of placement in sobering/observation cell;
5. Name and body number of the medical staff assessing the inmate at the time of placement into cell;
6. Description of any evidence of physical injury prior to placement into the cell;
7. Document on the observation log that food/fluid is offered and/or given and if the inmate refused such offerings;
8. Space for name and body number of medical staff re-assessing inmate's condition if retained for six (6) hours or longer; and
9. Description of the inmate's clothing or other obvious identifier when there are multiple occupants in the sobering cell.

Once the inmate has been removed from a sobering or observation cell, the log(s) will be collected and turned in to the Shift Commander. Safety Cell 3 (SC3) and Safety Cell 4 (SC4) – Cells located in the Inmate Reception Center.

2. The deputy placing the inmate into the safety cell shall notify medical staff upon placement and notify mental health as soon as possible.
3. A [303. Declaration in Support of Safety Cell Use](#) form will be completed by the Shift Commander or designee and an Observation Log will be initiated upon immediate placement of the inmate into the cell.
4. The module deputy is responsible for direct visual observation of the inmate, a minimum of twice every thirty (30) minutes. All observations will be documented on an Observation Log, located outside of the cell. These checks should be done in approximate fifteen (15) minute random increments.
5. The Shift Commander shall review the continued retention of each inmate assigned to a safety cell at least once every four (4) hours and document it on the log. 9. Staff assigned to the MCR and RCO will assist in the visual monitoring of inmate(s) in safety cells by video cameras installed in each cell. Any unusual activity or suspicious circumstances are to be reported as soon as possible to the Module deputy.
10. The safety cells are strict isolation cells designed to temporarily house only one (1) inmate at a time.
11. Nutrition and fluids: Inmates in safety cells must be provided all the necessary food and fluids. Inmates in safety cells are likely to have unusually high fluid replacement needs because of elevated physical exertion.
 - a. Inmates in safety cells shall be offered food and/or fed during scheduled feeding times for the jail population, three (3) times a day. One of the three daily meals shall consist of a hot safety cell meal. Offers and refusals shall be documented on the Observation Log; and

 - a. Inmates in safety cells should be provided an opportunity to wash their hands or shower, when circumstances warrant.
 - b. Safety cells shall be cleaned after each use. If the inmate is in the safety cell for an extended period of time (longer than twenty-four (24) hours), attempts should be made to have the cell cleaned.

NOTE: Safety smocks must be laundered after each use before issuing to another inmate. Four (4) safety smocks will be kept in a medical treatment room when not in use.

Safety Cell De-Escalation Plan

This plan was developed to provide de-escalation services to inmates within zero to twelve (0-12) hours (and thereafter if applicable) of placement in a safety cell with the goal of stabilization and return to regular housing.

1. 0 to 12 Hours in a Safety Cell:
 - a. Whenever possible, mental health personnel will provide immediate intervention **prior** to placement into a safety cell for those inmates who display signs of psychosis or verbalize an intention to harm themselves or others.

Santa Barbara County Sheriff's Office
Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	304. Use of Safety Cells	
Page: 4 of 5	Revision Date: 1/2017	Review Date: 1/2018

- b. If not evaluated prior to placement in a safety cell, mental health personnel will assess inmates within the first hour of placement.
 - c. During scheduled duty hours of 0700 to 2300 hours daily, mental health personnel will evaluate an inmate for continued retention every six (6) hours in a twenty-four (24) hour period.

 - f. Mental health personnel will document current mental health status, risk assessment, and therapeutic interventions at every interaction with inmates.
 - g. At or before twelve (12) hours in a safety cell, mental health personnel will complete the "Safety Cell Step Down" form.
2. 12 or more hours in a safety cell:
- a. The "Safety Cell Step Down" form is completed. H-1 and H-2 are available as transition cells in-lieu of safety cell placement.
 - b. South County Crisis Services (SCCS) will be called for an evaluation.
 - c. Mental Health personnel will also work in conjunction with SCCS for appropriate treatment for inmates.
 - d. Mental Health personnel will continue with the steps listed in Number 1 until the inmate is cleared from the safety cell.
 - e. Mental Health personnel will follow up regularly with SCCS to inquire about pending evaluation and placement.

All SCCS assessments will take place in a professional visitation booth, as long as it can be done so without having to do a forced cell extraction. In those cases when the inmate cannot safely be moved to a PV booth, SCCS should consult with the on-duty Shift Commander as to how to best facilitate the evaluation. The goal is to eliminate the assessment taking place at the safety cell door front/cell.

DOCUMENTATION:

The Observation Log is the official record of the physical checks made on the inmate during retention in the safety cell. This will be posted at the cell and shall contain the following information about the inmate. Absent exigent circumstances, it is imperative that any deviations to the Observation Log must be explained and recorded on the log.

Due to the proximity of medical services, all bunks in the South Dormitory (S-Dorm) shall be assigned by the Classification Unit through recommendations provided by the facility health care provider. The bunk assignments shall be documented in JMS.

A Medical Slip shall be maintained in the module office for the duration of the inmate's incarceration, documenting the necessity of a "Lower Bunk" assignment.

Page 1 of 8	Revision Date: 1/2017	Review Date: 1/2019
Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: Lexipol § 300, 304 & 312; PC § 4011; P&P § 605		

I. PURPOSE:

The purpose of this policy is to establish guidelines for the safe transport and security of inmates to the hospital, and while at the hospital.

II. POLICY:

Inmates booked into custody are the responsibility of the Sheriff's Office. All avenues of safety and security will be considered when assessing an inmate going to the hospital for an emergency medical situation. All inmates will be restrained in a manner which provides maximum security and minimal impact on the specific medical condition, to ensure the safety of the general public, medical staff and transporting deputy. Transporting without restraints requires approval by the Shift Commander or designee. All inmates transported by ambulance will be safely secured/restrained prior to transportation to ensure the safety of themselves, the transporting deputy and ambulance personnel.

In addition, Custody Operations will screen all inmates that are sent to the hospital to determine criteria for security needs. This criteria shall be used to determine if a guard will be assigned to the inmate, or if the inmate's status may be monitored using a hospital log without a guard present. The hospital log shall be documented once per shift, at approximately twelve (12) hour intervals.

This policy will apply to all hospitals within the County.

III. DEFINITIONS:

Emergency medical situations – Those situations where immediate services are required for the alleviation of severe pain, immediate diagnosis, and/or treatment of unforeseeable medical conditions are required, if such conditions would lead to serious disability or death if not immediately diagnosed and treated.

Hospital Guard – A deputy assigned to provide security and monitor the inmate, when admitted to the hospital.

Hospital Log – Used to document an unguarded inmate's status while at the hospital.

Consideration will be given to the potential for releasing the inmate from custody. The following alternative options will be considered:

1. Eligibility for citation release;
2. Alternative Sentencing;
3. Utilize Pre-Trial Services; and/or
4. Court orders.

In the event an inmate must be transported to a hospital, the following criteria will be used to determine the necessity of assigning a guard(s) with the inmate. It will be the responsibility of the Classification Unit deputy to review the classification file on the individual and make an appropriate recommendation to the Shift Commander or designee, who will make the final decision. For inmates housed at the Santa Barbara County Psychiatric Health Facility (PHF), staff at PHF may request a guard.

Risk factors will be taken into consideration when determining the necessity for sending a guard with the inmate. These include, but are not limited to the following:

1. Current charges:
 - a. High bail/flight risk; and
 - b. Two/Three strike inmate.
2. Sentence status;
3. Criminal history;

If the inmate poses neither a detectable threat of escape, nor any of the above, the Classification Unit deputy will forward a recommendation to the Shift Commander or designee, that the inmate may be monitored by the hospital log instead of placing a guard at the hospital after the inmate is admitted. Notification regarding the hospital log shall be provided to hospital staff, which will include contact information for jail staff as well as a notice that the inmate is not to be released to the streets and is to return to custody if they are to be released from the hospital.

Control Room deputies will be responsible for maintaining the hospital log. This log will be coordinated with a call to the nursing station asking the status of the inmate, per hospital log requirements at approximately 0700 hours and 1900 hours daily.

TRANSPORTING AN INMATE:

All inmate movement from one location to another will be regulated and controlled.

1. The transporting deputy assigned to guard an inmate will be weapons qualified in accordance with department policy.
2. Prior to departure, the deputy will ensure all pertinent booking/arrest information regarding the inmate is in the file marked "Hospital Guard Packet". The packet shall include the following:
 - a. Information describing the type of classification, i.e.: escape risk, violent, criminal history, in-custody behavior, gang affiliation, status on current charge(s), 2nd or 3rd strike information, prior escape attempts, etc.;

12. While at the hospital, the deputy will remain with the inmate at all times. Deputies will not allow distractions and will remain alert and maintain control. Deputies will allow the inmate as much privacy as necessary, when needed, while still maintaining proper and adequate security. The area within reach of the inmate shall be searched for anything that could be used as a weapon. The deputy should make sure to place him/herself between the inmate and the avenue of escape. Deputies are not to interfere with examinations; however, the security of the inmate is priority. Upon completion of the examination, the deputy should search the inmate, if possible.

CHAPTER 3 OPERATIONS	327. Safety Checks	
Page 1 of 3	Revision Date: 1/2017	Review Date: 1/2019
Issued By:  4973 Chief Custody Deputy	Issued Date: 6/29/2016	Effective Date: 6/29/2016
Related Orders: Title 15, CCR § 1027; PREA: 28 CFR 115.13, 28 CFR 115.15 (d)		

I. PURPOSE:

The intent of safety checks is to provide for the health and welfare of inmates through regular, intermittent and prescribed direct visual observations without the aid of audio/video equipment.

II. POLICY:

Custody Operations will conduct and document safety checks in all inmate housing, holding, and recreation areas. Safety checks shall be conducted at least hourly through direct visual observation of all inmates, identifying if anything appears out of order and looking for obvious signs of distress or trauma. There shall be no more than a 60-minute lapse between safety checks.

Each facility Commander shall ensure that intermediate level or higher supervisors and managers conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These rounds must be conducted during both day shift and night shifts if the facility operates during both shifts. These rounds shall be documented on the facility recap. Staff are prohibited from alerting other staff members that these supervisory/managerial rounds are being conducted, unless such announcement is related to the legitimate operational functions of the facility. (P&P 208 - Prison Rape Elimination Act; 28 CFR 115.13)

III. DEFINITIONS:

Safety checks – Regular, intermittent, random, and prescribed direct visual observation to provide for the health and welfare of inmates.

IV. PROCEDURES:

Custody Operations uses two (2) different methods to document a safety check. Each area of the jail has been specifically designated as to which method is used to document a safety check. One method is a handwritten log. The deputy completing the safety check will make a log entry of the time of the check and the body number of the deputy making the check. The other method of documenting safety checks is the use of the "Pipe" data collector. Proximity checkpoints have been installed at key locations throughout the housing units and other

areas within the jail. Safety checks should be conducted in a random order and each checkpoint will be scanned.

Staff of the opposite gender shall announce their presence when entering the housing unit of an opposite gender inmate. (28 CFR 115.15)

1. Safety checks that use handwritten or computer generated logs:
 - a. Male Basement Modules (MBD-1, 2, & 3);
 - b. Medium Security Facility;
 - c. Court Holding Facilities;
 - d. Basement Prowler (BP);
 - e. Safety cells;
 - f. Sobering/Observation cells; and
 - g. Restraint chairs.

2. Safety checks using the "Pipe" Data Collector:
 - a. A direct visual safety check shall be conducted and checkpoints scanned in all inmate housing areas located in the East, West, South, IRC, and the Northwest Modules. These checks shall be conducted at least once every hour, with no more than 60 minutes between each check.
 - b. Inspection of the recreation yards in the South Module, the IRC, Northwest and East Isolation should be completed prior to inmates being placed in the yards and upon the removal of each yard group from the yards. In addition, all yard checkpoints should be scanned at least one (1) time per shift.

Each deputy assigned to a Main Jail post (excluding Male Basement, Basement Prowler, Tower and Control Room) shall hit out a "Pipe" Data Collector device upon assuming duties.

Each deputy assigned to Male Basement Dorms 2 & 3 will be required to perform a minimum of one (1) walk-through (safety check) per hour, with no more than sixty (60) minutes between each check. These should be random in nature and are to be logged on the post recap. During safety checks another deputy is required to stand by.

Deputies assigned to an inmate housing unit shall document in the module post recap the time they assumed duties, their body number and the number of the Data Collector ("Pipe") they were issued. Any instances of exigent circumstances where a checkpoint is not scanned within the allotted one (1) hour time frame will be documented in the module post recap citing the reason for the deviation.

Page: 9 of 11	Revision Date: 1/2017	Review Date: 1/2018

4. Don personal protective equipment (PPE) as needed to safely conduct the strip search.
5. Escort the individual to the designated search area and direct the individual stand a safe distance but close enough to observe the individual.
6. Ask if the subject has contraband or weapons on their person. When searching clothing, use your fingers to feel for any inconsistencies in the clothing making sure to keep your eyes on the individual to ensure your safety, the safety of those around you, and that the individual does not discard any contraband.
7. While performing a strip search, go at your pace and do not allow the individual to hand you multiple items of clothing at one time. The individual might do this because they are uncomfortable or they are trying to keep contraband hidden on their person.
8. A strip search also provides an excellent opportunity to provide the individual with properly fitted clothing should they be wearing items that are too large for their frame.
9. When applicable, new clothing should be given to the individual being strip searched. Such instances are at intake/booking or during security searches often referred to as "shakedowns."

Conducting the Strip Search - Removal of Clothing:

1. Starting with the shoes:
 - a. Ask the individual to remove their shoes, one at a time, and hand them to you.
 - b. At no point do you bend over to pick anything up.
 - c. Thoroughly examine the shoes, bending and squeezing them to ensure there are no stiff objects inside that could be considered contraband.
 - d. If the insole can be removed, do so and examine the inside of the shoe; otherwise, examine the inside of the shoe with the insole inside.
 - e. Bang the shoe against a hard surface to knock anything loose that may be inside the toe area of the shoe.
 - f. Check the overall integrity of the shoe and verify that it will continue to hold up to daily routine activities. If the shoe is beyond its useful life, contact your watch commander. Complete this task for both shoes.
 - g. Place the shoes on the floor offset from the individual you are strip searching. Inmates being strip searched at intake will have to surrender their shoes. Their shoes along with their clothing will be stored in the property room.
2. Ask the individual to remove their outer garment (sweater, jacket, etc.) and hand it to you.

 - b. Also check the neckline to ensure contraband has not been hidden inside.
 - c. Ensure a change of clothing is given to the inmate/inmate when applicable.
3. Ask the individual to remove their pants/shorts and hand them to you. Inspect the waistband and the overall integrity of the pants/shorts.

 - a. sewn or glued in hair extensions (weaves)
 - b. Wigs
 - c. Prosthetics

Conducting a Strip Search - Visually Inspecting the Individual's Body:

1. The individual standing in front of you should be nude and facing you. During each step of the process, you are going to watch the area of the body you ask the individual to move, open, or otherwise manipulate to ensure there is no contraband hidden on their body. Tell the individual exactly what you want them to do and move at your pace. A strip search should never be rushed.
2. Direct the individual to perform the following steps:
 - a. Reach or raise their hands out in front of them, parallel to the ground and wiggle their fingers
 - b. Flip their hands over and visually inspect the other side
 - c. Raise their arms above their head while visually inspecting their armpits
 - d. Run a finger between their wristband and wrist (If applicable)
 - e. Open their mouth to inspect the inside (Use a flashlight if necessary.)

I. PURPOSE:

To reduce and minimize altercation-related injuries to deputies and suspects, the department authorizes the use of selected less-lethal and control devices. These devices are provided in order to control violent or potentially violent subjects. It is anticipated that the use of these devices will generally result in fewer altercation-related injuries to deputies and violent or potentially violent subjects. The below procedures are for the storage of less-lethal devices; i.e., chemical agents, kinetic energy projectiles (40mm), Pepper Ball projectiles.

II. POLICY:

The policy of Custody Operations will be that no weapons, ammunition or chemical agents be brought inside the security areas of the jail without the permission of the Jail Operations Division Commander or designee. Deputies bringing inmates into the jail may store weapons in the gun lockers provided. Keys to the weapon lockers where Custody Operations weapons are stored will be secured in the key room.

III. DEFINITIONS:

Chemical Agents – Any toxic chemical or its precursor that can cause death, injury, temporary incapacitation or sensory irritation through its chemical action.

CS – Chlorobenzalmalononitrile (Tear Gas)

Kinetic Energy Projectiles – A projectile that does not contain an explosive charge or any other kind of charge.

OC – Oleoresin Capsicum (Pepper) spray

2. Chemicals with an active ingredient of OC spray or CS gas may be used within the jail facilities. This policy does not restrict those chemicals which have a manufacturers mixture or combination of the two chemicals listed above;
3. All chemical agents may only be used in compliance with manufacturers recommendations (cell area vs. length of deployment must be considered). All personnel involved in extractions, riots and hostage recovery involving chemical agents will be equipped with approved chemical agent masks; and
4. Any inmates exposed to chemical agents will receive medical treatment for such exposure as soon as practical after the incident, as stated within Lexipol § 308.4.4

PEPPER BALL LAUNCHERS (PBL):

PBL will be staged in two (2) separate locations in the Main Jail. All PBL's will be secured in a locked storage cabinet. Two (2) PBL's will be located in the West Module Office and two (2) PBL's will be located in the IRC Bus Hallway Equipment Room.

At the Medium Security Facility (MSF) a single PBL will be staged at the MSF. The PBL will be secured in a lock storage cabinet located in the MSF Control Room.

1. Any use of PBL's for cell extractions, riot situations or hostage recovery must be approved by the on-duty Operations Lieutenant or in his/her absence, the on-duty Supervisor.
2. Use of the PBL's will comply with Lexipol § 300 and 308.4.3.

IV. PROCEDURES:

The video recorder will be kept in the Shift Commander's Key Box with fully charged batteries and an empty memory card. Each supervisor will be responsible for checking and managing routine maintenance. The date and time must be checked to ensure they are set properly prior to use.

The Shift Commander will issue the order to deploy/activate the video recorder. The video recorder will be used as directed by the Shift Commander or designee.

The video recorder shall be deployed/activated, absent exigent circumstances, for the following incidents:

1. Riot or major disturbance;
2. Hostage situations;

CHAPTER 3 OPERATIONS	332. Metal Detector (Magnetometer)	
Page 1 of 4	Revision Date: 1/2017	Review Date: 1/2019
Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: PC § 4030, 4570.5, 4573, 4573.5, 4573.6, 4573.8, 4573.9, 4574, 4575, 6350; Title 15, CCR; P&P § 322 and 328; 4 th Amendment of the U.S. Constitution; Americans with Disabilities Act		

I. PURPOSE:

To provide a safe and secure environment for inmates, visitors and staff within the Santa Barbara County Jail facilities, a metal detector (magnetometer) may be utilized to screen inmates and visitors for contraband.

II. POLICY:

All visitors accessing the secure portions of the jail are subject to a search. This search may be performed utilizing a walk-through metal detector (magnetometer) or a handheld magnetometer, if directed by the Jail Operations Division Commander or designee. This type of search is an administrative search protected under the 4th Amendment to the U.S. Constitution. Those visitors refusing to be subjected to a search shall not be granted access to county jail facilities without the approval of the Jail Operations Division Commander or designee. All deputies utilizing this equipment will be properly trained in its operation prior to use.

III. DEFINITIONS:

Contraband – Weapons, drugs, or any other items that can pose a threat to the safety and security of the jail facility, or persons in the jail facility. This includes any item or article not issued by the facility, purchased from commissary, purchased through other approved channels or approved by the Jail Operations Division Commander or designee. Any authorized item found altered in any way will be considered contraband and will be confiscated.

Implantable Cardioverter-Defibrillator or Defibrillator – A device implanted beneath the skin, which monitors an individual's heart rate for an abnormally rapid heart rhythm. If an unusually rapid rhythm is detected the device sends an electric shock to the individual's heart to restore a normal rhythm.

Magnetometer – A device used to detect the presence of ferrous or magnetic materials (metals). For purposes of this policy, magnetometer and metal detector will be synonymous and refer to both the handheld metal detector and the walk-through metal detector.

Santa Barbara County Sheriff's Office
Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	332. Metal Detector (Magnetometer)	
Page: 2 of 4	Revision Date: 1/2017	Review Date: 1/2019

Pacemaker – An electronic device implanted beneath the skin which provides a normal heartbeat by electrically stimulating the heart muscle.

Sterile Area – An area in which all persons and objects located in this area have been searched for the presence of weapons or contraband.

IV. PROCEDURES:

Walk-through and handheld metal detectors may be utilized to screen potential visitors to county jail facilities with the approval of the Jail Operations Division Commander or designee. The walk-through metal detector will be stored in a secure location. All deputies utilizing this equipment will be responsible for ensuring that this device is functioning properly prior to and after each use and will be trained in its use.

VISITORS:

A sign advising visitors that they will be passing through a metal detector shall be posted in view of potential visitors. This sign should include a warning for people with justifiable medical conditions (such as the presence of a pacemaker or defibrillator) to avoid passing through the walk-through metal detector. In this instance, a handheld metal detector shall be used instead (as the handheld metal detectors emit a much smaller magnetic field which will not adversely affect pacemakers or defibrillators).

At no time shall an individual who has been successfully screened for contraband have direct contact with another individual who has not been screened within the sterile area. Should this occur, all visitors who have had direct contact with an individual who has not been screened will need to be screened again to ensure that no unauthorized items were passed.

Visitors will be advised to empty their pockets of all metallic items prior to passing through the walk-through metal detector. These items will be placed in a tray or bowl next to the detector. These items will be searched by a deputy for contraband prior to returning these items to the visitor.

The visitor will be directed to walk through the metal detector at a normal pace. A deputy will monitor the visitor's movement through the device and observe the device for evidence of an alarm. Should a visitor trigger an alarm on the device (a visual light sequence with a corresponding auditory alarm), the visitor will be asked to return to the entrance of the walk-through metal detector and once again relinquish all metallic objects. The visitor will be allowed a second pass through the walk-through metal detector. A visitor triggering the walk-

through metal detector alarm on the second pass through will be subjected to a handheld metal detector search.

In compliance with the Americans with Disabilities Act (ADA), those visitors who utilize movement assistance devices (wheelchairs, crutches, walkers, canes, etc.) will be allowed access to visitation provided they are adequately screened. A visitor who enters the facility in a wheelchair or who utilizes another device which appears to contain metal components will be given the option of exiting their wheelchair, or other device, and walking through the metal detector or be searched with a handheld metal detector while standing near their wheelchair or device. A deputy will also search the wheelchair or other device prior to allowing it into the sterile area.

Any visitor refusing to submit to a search of their person will be restricted access to the facility unless authorized by the Jail Operations Division Commander or designee.

INMATES:

A sign advising inmates that they will be passing through a metal detector shall be posted in view of the inmates. This sign should include a warning for people with justifiable medical conditions (such as the presence of a pacemaker or defibrillator) to avoid passing through the walk-through metal detector. In this instance, a handheld metal detector shall be used instead (as the handheld metal detectors emit a much smaller magnetic field which will not adversely affect pacemakers or defibrillators).

Inmates passing through the walk-through metal detector should not be restrained with handcuffs, waist chains or leg irons. Inmates will walk through the walk-through metal detector at the direction of a deputy. Should an inmate trigger an alarm on the walk-through metal detector, he/she will be subjected to a search utilizing the hand-held metal detector. Following this search, the inmate will be subjected to a pat-down search. If the cause of the initial alarm is still unresolved, a supervisor will be notified and this inmate will be monitored by custody staff until a determination for a strip search can be made by a supervisor.

Inmates utilizing mobility assistance devices (wheelchairs, crutches, walkers, canes, etc.) will be given the option of exiting their wheelchair, or other device, and walk through the metal detector or be searched with a handheld metal detector while standing near their wheelchair or device. Deputies administering the search will ensure that all searches are performed with regard to the inmate's safety and potential for injury. All mobility assisting devices will be searched thoroughly prior to allowing the inmate to continue past the metal detector(s).

All uses of metal detectors in county jail facilities will be documented in the shift commander's recap or in the respective module deputy's recap. Any found

II. POLICY:

All divisions and units of Custody Operations for the Santa Barbara County Sheriff's Office shall follow this policy. The use of restraint devices shall be consistent with the design and function recommended from the manufacturer. Uses of restraint devices shall be for the sole purpose of maintaining the safety, security, control and order. At no time will the use of restraints be acceptable as a form of punishment. Handcuffs shall be the only restraint used on pregnant inmates, unless there is a justified safety concern; handcuffing pregnant inmates to the front shall be the common practice, unless exigent circumstances exist.

An inmate known to be pregnant or in recovery after delivery shall not be restrained by the use of leg irons, waist chains, or handcuffs behind the body unless exigent circumstances exist and must be documented for each occurrence.

The security eye bolts located in the floor of the IRC interview room will be used to secure inmates during interviews. No less than two (2) deputies are required to secure and remove the inmate to and from the security eye bolts.

III. DEFINITIONS:

Full Restraints - Leg irons, waist chains and handcuffs.

Security eye bolts – Eye bolts recessed into the floor in the Inmate Reception Center (IRC) interview room used to secure inmates to ensure the safety of the interviewer.

IV. PROCEDURES:

The application of restraint devices will be consistent with the manufactures suggested use, applied in the most secure method, double locked, affixed in a manner to maintain the proper amount of tension, without causing undue discomfort.

HANDCUFFING FOR COURT/PRISON TRANSPORTS:

1. Before any handcuffing of inmates takes place, Transportation Unit deputies will review the Information Notations of the Court Roster and check the inmate's wristband.
2. All inmates placed on a court chain will have both hands secured to the security chain unless exigent circumstances exist.
3. Deputies will ensure each cuff is snug against the exposed skin of the wrist with no clearance and/or clothing between the wrist and the handcuff. Only inmates with medical or physical impairments preventing the proper application of wrist restraints would constitute an exception. Applying restraint devices in these instances would be at the discretion of the Transportation Deputies with the interest in preserving safety and security during transports.

NOTE: Consult Medical staff prior to transport.

4. Individual inmates will be secured with a waist chain, lock box and leg irons who are classified as high risk for reasons including, but not limited to:

Issued By:  Chief Custody Deputy	Issued Date: 10/5/2017	Effective Date: 10/5/2017
Related Orders:		

I. PURPOSE:

The purpose of this policy is to provide guidelines for the appropriate and safe use of the SAFETY RESTRAINT CHAIR (movement chair). This policy applies to the use of restraints on inmates who display behavior that is assaultive towards staff, or overtly threatens physical harm to themselves or others while being moved.

II. POLICY:

It is the policy of the Santa Barbara Sheriff's Office Custody Operations Branch to utilize the movement chair only as a last resort method of safely escorting combative or self-injurious inmates. Authorization for the use of the movement chair shall be obtained from the on duty Shift Commander prior to placement. The movement chair shall only be used by those Custody Deputies, who have been trained in the use of the movement chair. The movement chair shall only be used when it is deemed that the inmate poses an imminent threat to staff or other inmates during an inmate movement. Inmates shall only be secured into the movement chair using the manufacturer's instructions and approved techniques.

No inmate shall be left in the movement chair unsupervised, and the inmate shall be removed immediately when he/she has reached the desired location and can be safely removed. The movement chair will not be used as a form of punishment or as a substitute for treatment. Whenever feasible, inmates will be fully clothed when placed in the movement chair (i.e., a safety smock or pants, shirt, and underclothing). If the restrained inmate is not fully clothed, they shall be covered with a sheet prior to movement. The reason the inmate is not clothed and the supervisor's approval will be documented in the corresponding inmate disciplinary report or offense/incident/arrest report.

III. DEFINITIONS:

Movement Chair: A mobile restraint device and safety seat designed to substantially secure an inmate so as to prevent physical harm to themselves or others while moving them from one location to another.

IV. PROCEDURES:

CHAPTER 3 OPERATIONS	335. Movement Chair	
Page: 2 of 3	Revision Date: 10/2017	Review Date: 1/2019

When placing an inmate in the movement chair, a supervisor and a minimum of three (3) deputies should be present to ensure officer safety. The deputies will normally position themselves and apply the restraint equipment as follows:

1. A deputy will move the movement chair to the location where the inmate is located and allow for enough room to afford appropriate space to work. The wheel locks should be locked, so the movement chair does not move as you are placing the inmate in the chair.
2. Deputies will ensure that the restraints on the chair have been unfastened or loosened to allow for the placement of an inmate.
3. Deputies will handcuff the inmate to the rear prior to placement in the movement chair. Whenever possible, leg restraints should be applied.
4. One deputy will take the position behind the restraint chair to control the inmates head.
5. Another deputy will stand at the right arm of the inmate and the third deputy will stand at the left arm of the inmate each controlling one arm and shoulder of the inmate.
6. Another deputy, if available, will stand ready to control the inmate's legs.
7. One deputy will fasten the lap strap restraint across the inmate and tighten it using the friction buckle.
8. If the inmate is in leg restraints, the chain of the restraints will be placed behind the chain retainer located at the bottom of the chair
9. The deputies controlling the arms will place the handcuff tether on the center portion of the handcuffs.
10. Deputies will place the shoulder straps over each shoulder, then under the armpit, and secure the strap to the back of the chair. Deputies will tighten the shoulder straps at the friction buckle located at the upper rear portion of the chair.
11. Deputies will secure each ankle by pulling out the ankle belt, wrapping it around the ankle, and securing it in the friction buckle.

Custody Operations – Policy and Procedures Manual**

CHAPTER 3 OPERATIONS	335. Movement Chair	
Page: 3 of 3	Revision Date: 10/2017	Review Date: 1/2019

12. Deputies will lift the foothold of the chair by tipping the handlebar backwards towards them and they will transport the inmate to the desired location. Once the desired location is reached, the deputy will slowly lower the foothold to the floor.
13. Deputies will attempt to gain verbal compliance from the inmate so that they may safely remove the inmate from the movement chair.
14. Deputies will remove the ankle belt, then remove the shoulder straps and remove the lap strap restraint from the inmate. The inmate will then be walked out of the chair to a housing location or holding cell.
15. Once placed into a housing location or holding cell, the restraints (handcuffs, leg irons) will be removed from the inmate.
16. One deputy shall document the use of the movement chair by submitting an inmate disciplinary report (incident) to the shift commander with a narrative of the incident included. If force was used to place the inmate in the movement chair and/or if there are any injuries to inmate or staff, then the incident will be documented in an offense/incident/arrest report.

Page 1 of 5	Revision Date: 1/2017	Review Date: 1/2019
Issued By:  4973 Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: Attorney General's Opinion 93-610, Turner (9 th Cir. 1994) 28F.3d 981, 983; Title 15, CCR § 1264 and 1216		

I. PURPOSE:

The purpose of this policy is to establish guidelines for the appropriate processing of an inmate's personal property and money while in custody.

II. POLICY:

Custody Operations will ensure the money and personal property belonging to all inmates is accounted for and protected while in custody. The Property Inventory form filled out at intake will be complete and accurate.

III. DEFINITIONS:

Property Inventory – is the system of itemizing each inmate's property and money upon intake. This procedure is completed using the JMS system; however, should a power outage occur, the Property Inventory (SH-761) form will be used.

IV. PROCEDURES:

PERSONAL PROPERTY:

- Property Inventory is to be completed in the inmate's presence at the time of receiving, when possible. The property bag will be sealed in receiving with a numbered tag. The tag number will be entered in the appropriate location on the Property Inventory form printed from JMS before the inmate signs the form. The inmate will be given a copy.
- Bags are available for inmate property in three different sizes: small, medium and extra-large. Receiving deputies should always use the smallest bag whenever possible. The medium property bag will hold most purses, fanny-packs and small bags. Inventory items and place them in a zip-lock bag. Seal the property bag with the inmate's itemized property, the purse or other bag, and all its contents in the inmate's presence.
- If the inmate has no property to inventory, the appropriate box will be marked, and the inmate will sign the printed JMS form. The printed form will be placed in the outer pocket

of an empty property bag for processing. This lets the property deputy know there is no property, maintains safe storage of the documentation, and standardizes property storage.

4. In cases where the inmate is combative or too intoxicated to complete the receiving process, this information will be noted on the Property Inventory form. In these cases, one deputy will itemize the inmate's property on the form and one deputy will observe this process as a witness. The witnessing deputy will be noted on the bottom of the JMS form.
5. Property for inmates who are to be cite released is retained in booking. All other property is stored in the Property Room.
6. Any property too large for our existing bags, (luggage, hiker backpack, large garbage bag, etc.) will be searched. Any items of obvious value will be sealed in the appropriate size bag. The remaining bulk property, deemed unnecessary for storage in a sealed property bag, will be placed in a clear plastic bag with a copy of the inmate's booking sheet. The Property Inventory form will be completed stating, "has bulk property" along with any additional pertinent information. The bulk property will be sent to the property room.

NOTE: Bulk property is only accepted from Santa Barbara County Sheriff's Office arresting deputies. All other agencies retain responsibility for other than the personal property that will fit in the medium size property bag. The extra-large size property bags will only be used for SBSO arrestees.

7. If an inmate is in a wheelchair, or the arresting officer brings the inmate's wheelchair, medical staff will be notified to bring out a provider wheelchair for the inmate. The inmate's personal wheelchair will be accepted and stored in the Property Room until the inmate is released. Any other bulk property attached to the wheelchair will not be accepted.
8. Should it become necessary to open a sealed property bag, the following information will be noted in the appropriate location on the printed Property Inventory form:

9. An inmate must sign a Property Release (SH-153P) form in order to release property while in custody. Property is released on an "all or nothing" basis. When a deputy picks up a Property Release form they will do the following:

 - b. The deputies name and body number will be at the top of the form; and
 - c. Forward completed form to the Property Room.

Property will only be released to the person named by the inmate after proof of identification is made. The person processing the release of property will write in the number of the identification used, enter their name, body number and the date processed. Once the release is completed, the original Property Release form is stapled to the property card and the copy is returned to the inmate.

 - b. If all personal property is released with the inmate's permission, or by warrant, it will be noted on the Property Release form and the empty bag with a printed Property Inventory form will be returned to the inmates property bin.

11. Every deputy has a responsibility to maintain proper custody of inmates' personal property. Any time a deputy finds a property bag that is not empty and is not sealed with a numbered tag, they will notify the on-duty Lieutenant or designee immediately. The deputy will then open the bag in the presence of another deputy, preferably a supervisor, and conduct an inventory of the bag.
 - a. If all property is accounted for, a new seal is to be placed in the bag. Notation of the new seal number, date, time, body number and results of the inventory are to be made on the Property Inventory form in JMS.
 - b. If any property is missing, a report will be completed (015L is the appropriate classification) and a new seal is to be placed on the bag. Notation of the new seal number, date, time, body number and results of the inventory are to be made on the Property Inventory form in JMS.

12. At the time of release, the tag number will again be noted on the Property Inventory form with the releasing deputy's body number and a notation that the seal number was verified as matching the last seal number listed for the property. If any discrepancy is identified during the property release process, the on-duty Lieutenant or designee will be notified immediately. If the discrepancy cannot be resolved, a report will be completed.

If the difference is less than \$10.00, the Supervisor may make a correction. If the difference is more than \$10.00, the on-duty Lieutenant, shift supervisor or designee will be asked to verify the amount. If the disagreement cannot be resolved, a report will be completed.

CHAPTER 3 OPERATIONS	341. Release Criteria	
Page 1 of 7	Revision Date: 1/2017	Review Date: 1/2019
Issued By:  4973 Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: PC § 853.5, 853.6, 849 (b), 825, 1269b(g); P&P § 340		

I. PURPOSE:

Each new arrestee booked into the Santa Barbara County Jail will be carefully screened to determine eligibility for a citation release prior to arraignment. In addition, booked inmates, after having been arraigned on misdemeanor charges, will be considered for citation release.

II. POLICY:

Prior to any inmate's release, identification will be verified with the Live Scan return. This includes Penal Code § 849(b) releases. It does not apply to three-hour detainees, as these are detainees only and not booked. In the event the Live Scan system is down, the on-duty Supervisor will use the below listed protocol to ensure all avenues of identification are utilized prior to release.

III. DEFINITIONS:

Penal Code § 849(b) (2) – Any peace officer may release from custody, instead of taking such person before a magistrate, any person arrested without a warrant whenever:

1. He or she is satisfied that there are insufficient grounds for making a criminal complaint against the person arrested.
2. The person arrested was arrested for intoxication only, and no further proceedings are desirable.
3. The person was arrested only for being under the influence of a controlled substance or drug, and such person is delivered to a facility or hospital for treatment and no further proceedings are desirable.

Persons arrested are eligible for release with the approval of the arresting officer providing:

- a. They have no additional charges or outstanding warrants, and
- b. They are sober enough to care for themselves at the time of release.

This is a detention only, with no criminal charges pending.

CHAPTER 3 OPERATIONS	341. Release Criteria	
Page: 2 of 7	Revision Date: 1/2017	Review Date: 1/2019

Penal Code § 853.6 – Notice to Appear: Persons booked on misdemeanor charges may be cite released. It is the responsibility of the Booking Clerk to screen new arrests to determine whether the inmate meets the criteria for citation release.

If at any time an inmate refuses to sign a citation release, the inmate will not be released.

Homeland Security Return – After fingerprinting, the Department of Homeland Security will provide the jail with verification if an individual has been a previously deported criminal alien. This verification is referred to as a “return”.

IV. PROCEDURES:

IMMIGRATION NOTIFICATION (ICE NOTIFICATIONS):

The Santa Barbara County Jail regularly receives Immigration Detainer/Notification requests (DHS Form I-247D) from the Department of Homeland Security, U.S. Immigration and Customs Enforcement (ICE) Division. The detainer is a request that the agency notify ICE, prior to releasing the individual, in order for ICE to arrange to assume custody.

When the Sheriff's Office receives a DHS Form I-247D, the following **“NOTIFICATION PROCEDURE”** will occur:

The detainer/notification will be entered into JMS in the Booking tab as a “Condition Of Release” with the following information:

1. ****CUSTODY RECORDS****
2. **CONTACT ICE PRIOR TO RELEASE FROM CUSTODY**
3. **(805) 432-6639**

After this information has been entered into JMS, the DHS Form I-247D Form will be scanned into JMS as part of the booking information in the respective inmate's file. The phone number listed in the above must be called prior to release. If no one answers the phone, a message will be left indicating the Sheriff's Office is going to release the inmate. Once the notification has been made, **notification of call time and date, and if a message was left or the name of the agent spoken with will be documented in the same tab of JMS (Condition of Release) with the date, time, and body number of the person who made the notification.**

For those that return from court and their remand indicates they are to be released, “time served forthwith”, the above listed **“notification procedure”** will be followed.

CHAPTER 3 OPERATIONS	341. Release Criteria	
Page: 3 of 7	Revision Date: 1/2017	Review Date: 1/2019

For those scheduled for release on the daily time serve release roster, they will be processed for release each day between the hours of 1000 and 1200, and turned over to the ICE agents. The daily release roster will indicate that the inmate will be released to ICE. ICE agents will be allowed to park their transportation vehicle in the secure parking lot located in the rear of the facility and allowed into the facility to assume custody of these inmates. The pick-up times can be flexible should ICE call and communicate they are running late.

The Santa Barbara County Sheriff's Office will not honor ICE Detainers and will not hold inmates on these detainers. Only duly issued warrants as authorized by a federal judge will in all cases be honored.

CITATION RELEASE:

Upon receiving the inmate into custody, the receiving deputy will assess if the inmate is eligible for citation release. If it is determined that an inmate is eligible for citation release, the receiving deputy will place any money that has been counted into the inmate's property bag and seal it with the orange zip lock.

The receiving deputy will give the inmate's property bag and the booking paperwork to the Booking AOP and place the inmate in an appropriate holding cell. The Booking AOP or receiving deputy will put the inmate's property bag in the release property cabinet, complete the booking process in Jail Management System (JMS), and retain the paperwork. Do not send the paperwork to Custody Records.

A WANDA and California Law Enforcement Telecommunications System (CLETS) check will be completed once the booking is completed. If all checks are clear, an Inmate's Custody Record File will be created by booking staff and placed in the pending release file box located in Booking. The tab of the file folder should display the inmate's last name, first name and booking number. All booking paperwork will be placed in the file folder and placed in the file box.

A shift supervisor will review all citation releases and document their approval on the appropriate form. Once approved, Booking personnel are required to:

1. Complete the citation and have a deputy obtain the inmate's signature.
2. Enter the citation number and set a court date in JMS.
3. Enter the release information on all citations and Penal Code § 849(b) releases.

CHAPTER 3 OPERATIONS	361. Grievance Procedures	
Page 1 of 3	Revision Date: 1/2017	Review Date: 1/2019
Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: Title 15, CCR, §1073; PC § 6030; Federal Civil Rights of Institutionalized Persons Act		

I. PURPOSE:

The purpose of this policy is to provide inmates a procedure for filing grievances and appeals relating to conditions of confinement.

The Federal Civil Rights of Institutionalized Persons Act encourages grievance mechanisms, and many state courts expect that available administrative remedies be pursued before bringing the matter to the court. A functional grievance procedure can serve as an important management information tool, as well as an opportunity for inmates to voice concerns and objections.

II. POLICY:

Custody Operations shall provide inmates a procedure through which they can appeal, and have resolved, grievances relating to any conditions of confinements, included but not limited to: medical/mental health care; classification actions; disciplinary actions; program participation; telephone, mail, visiting procedures; food, clothing, and bedding.

III. DEFINITIONS:

IV. PROCEDURES:

To file a complaint, an inmate shall complete an Inmate Grievance (SH-585a) form. The module deputy will supply Inmate Grievance forms to the inmate, upon request. If more space is needed to document the complaint, an additional Inmate Grievance form will be provided.

1. Grievances are to be resolved at the lowest appropriate staff level. The deputy receiving the grievance will review it and attempt to resolve the issue. If the grievance is resolved, the deputy will document on the Inmate Grievance form what and how it was resolved, sign/include body number, and follow the distribution process below.
2. Any allegations of serious misconduct will be reported immediately to the on-duty Shift Commander or designee.

Santa Barbara County Sheriff's Office
Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	361. Grievance Procedures	
Page: 2 of 3	Revision Date: 1/2017	Review Date: 1/2019

3. If the issue is not resolved, the deputy will confirm that the form is filled out completely, sign (include body number) and date the grievance, and the inmate will be provided the golden copy at this time.
4. The remaining original copies will be forwarded to the Shift Commander.
5. The Shift Commander shall then do the following:
 - a. review, sign (include body number) and date the grievance;
 - b. enter the grievance information into JMS and obtain a log number;
 - c. remove the pink copy and place it in the Administrative Custody Deputy's mailbox;
 - d. and place the remaining copies in the appropriate unit's mailbox for response.
6. Should the Supervisor determine immediate action is necessary, it shall be the Supervisor's responsibility to ensure that the appropriate staff member, or unit, be notified without delay. In the event the Supervisor decides there is no basis for the grievance or that the problem has been resolved, the Supervisor shall respond as such on the Inmate Grievance form, in the space provided.

NOTE: Grievances pertaining to Medical and Mental Health shall be given immediate attention.

GRIEVANCE REPLY:

1. Once a reply has been completed, either directly on the Inmate Grievance form or using the Inmate Grievance Reply (SH-585) form, the grievance and reply will be forwarded to the appropriate Lieutenant for review.
2. The Lieutenant shall then do the following:
 - a. Review the Inmate Grievance and reply and if acceptable, will sign the form(s);
 - b. Place the yellow copy, along with Inmate Grievance Reply form (if attached) in the appropriate module mailbox (to be returned to the inmate); and
 - c. Place the white copy, along with the Inmate Grievance Reply Form (if attached) in the Administrative Custody Deputy's mailbox.
3. The Administrative Custody Deputy will log the response and forward the grievance to Custody Records for placement in the Inmate's Custody Record File.

Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	361. Grievance Procedures	
Page: 3 of 3	Revision Date: 1/2017	Review Date: 1/2019

APPEAL PROCESS:

1. If the inmate is not satisfied with the reply, he/she may appeal the reply, using another Inmate Grievance form (a new log number will be generated and original log number will be referenced at appeal checkbox), via the chain of command in the following order:
 - a. Sergeant;
 - b. Lieutenant;
 - c. Appropriate Division Commander;
 - d. and Chief Deputy.
2. The reviewing authority will reply to the appeal and process it accordingly.
3. This policy requires written responses including reasons for denial at each level of review.
4. All attempts should be made to reply to grievances and appeal within fifteen (15) days from the date of receipt. Should a response be delayed, the inmate will be informed of the delay in writing (by the author of the response/appeal) and provided with the anticipated response date.
5. All grievances will be responded to, regardless of custody status.

GRIEVANCE SYSTEM ABUSE:

At times, an inmate may submit an excessive amount of grievances in an attempt to paralyze the administration. Grievances determined to be "frivolous" and identified as not pertaining to a valid complaint will be marked as "reviewed by:" and filed in the Inmate's Custody Record File. It is important to document the reasons that a grievance has been considered frivolous.

Issued By:  4973 Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: Title 15, CCR § 1080, 1081, 1082, 1083, 1084, 1265 and 1247; PC § 4001, 4002 and 4019; The United States Constitution, 8 th ; Title 24, Section 2-470A.2.6 and 2.7 CCR		

I. PURPOSE:

The purpose of this policy is to establish rules and disciplinary penalties to guide inmate conduct. Such rules and disciplinary penalties are stated simply and affirmatively. A copy of the Jail Orientation Handbook is issued to each inmate at the time he/she is dressed into jail clothing. The Jail Orientation Handbook are available in both the English and Spanish language. For inmates who are unable to read and for persons with disabilities, Jail Orientation Handbook are presented over the jail video system on a daily basis. The discipline process is an administrative, not a judicial, process.

II. POLICY:

Minor acts of non-conformance or minor violations of Jail Orientation Handbook may be handled informally by any staff member through counseling or advising the inmate of expected conduct, assignment to extra work detail, or removal from a work assignment without loss of work time credit. In addition, temporary loss of privileges such as, but not limited to, access to television, visits and commissary may be considered minor acts of discipline if such acts are accompanied by written documentation, and due process in the form of an Inmate Disciplinary Report (IDR).

Major violations or repetitive minor acts of non-conformance or repetitive minor violations of Jail Orientation Handbook shall be reported in writing by the staff member observing the act and submitted to the On-Duty Supervisor. The inmate shall be informed of the charges in writing. The consequences of the major violations may include, but are not limited to, loss of good time/work time, placement in disciplinary restrictive housing, disciplinary diet, or loss of privileges such as visits and commissary. These acts of discipline shall be accompanied by written documentation, and due process in the form of an Inmate disciplinary Report (IDR).

III. DEFINITIONS:

DUE PROCESS - Allowing a person an opportunity to be heard, and a decision made by a neutral decision maker.

Custody Operations – Policy and Procedures Manual

Page: 2 of 8	Revision Date: 1/2017	Review Date: 1/2019

IV. PROCEDURES:

1. Reportable violations of Jail Orientation Handbook or minor acts of non-conformance shall be documented on an Inmate Disciplinary Report (IDR) and entered in the Jail Management System (JMS) by the deputy or staff member observing the act. This deputy will be responsible for informing the inmate of the violations. IDRs are also used to document minor medical incidents.
 - a. If the violation being investigated amounts to a crime, punishable by law in a separate action prosecuted by the District Attorney (a separate offense report must be written), the inmate must be admonished of his/her *Miranda* rights prior to any questioning
 - b. If the inmate waives his/her *Miranda* rights, statements can be used in both the criminal case, and the administrative IDR investigation.
 - c. If, after being advised of his/her *Miranda* rights, the inmate chooses to remain silent, or desires attorney representation, the questioning must cease, and no statement may be solicited from the inmate for either the criminal or the administrative IDR investigation. In instances such as these, the IDR Board may delay the hearing until the criminal process has been completed.
 - d. If the violation is minor in nature, where it is decided no crime occurred, then the inmate may be questioned for the administrative IDR investigation without being advised of his/her *Miranda* rights.
 - e. The reporting deputy will document previous disciplinary actions against the inmate in the IDR.
2. The On-Duty Supervisor will review and process completed IDRs on a daily basis. The IDR Board will be comprised of two (2) impartial deputies, of which one should be a Senior Custody Deputy or designee.
3. An IDR Board shall be conducted no sooner than twenty-four (24) hours, but no later than seventy-two (72) hours after an inmate has been informed of the charge(s) in writing. An inmate may waive the initial twenty-four (24) hour waiting period. This must be documented on the IDR form and initialed by the inmate.
4. An inmate may refuse to sign an IDR form and/or waive the right to appear before an IDR Board. In this case, a supervisor must verify the inmate's waiver after the twenty-four (24) hour initial waiting period has expired, but before the IDR is finally processed. The supervisor will document this on the IDR form.

5. An inmate may request that the IDR Board speak to witness(s) regarding the alleged rule(s) violation. This request shall be honored. The witness(s) may refuse to talk to the Board.

6. Once the IDR Board has heard the evidence and discussed the case, a decision of guilt or innocence will be decided, identifying the reason or evidence used to reach that decision.
 - a. Inmate discipline is an administrative proceeding, not a judicial process. The weight and quality of evidence in an IDR Board setting is not as strict as that required in a criminal charge. Additional consideration must be given to the deputy's statement. If, however, there is a substantial doubt left in the mind of the IDR Board as to the deputy's statement, the IDR Board should contact the deputy who wrote the IDR and any other deputy witness to the incident for clarification before making a final decision.
 - b. The IDR is then forwarded to the on-duty Supervisor who will review the inmate's previous discipline history and recommend suitable punishment, and enter his/her recommendation in JMS and on the IDR form. The IDR is then forwarded to the Operations Lieutenant for review and entered in JMS with final recommendation. The original copy of the IDR is forwarded to the Classification Unit and scanned in the Inmate's JMS File and a copy of the final disposition is returned to the inmate.

FORMS OF DISCIPLINE:

The degree of punitive action taken shall be directly related to the severity of the Jail Rule violation. Acceptable forms of discipline shall consist of but are not limited to:

1. Loss of privileges;
2. Extra work detail;
3. Removal from work detail;
4. Loss of good time credits (sentenced inmates only);
5. Stop accumulation of work time credits (sentenced inmates only);

An inmate may serve up to thirty (30) days consecutively for separate findings on different violations. Restrictive housing beyond thirty (30) days requires a review by the Jail Operations Division Commander, which shall include consultation with medical/mental health staff, and continue every ten (10) days thereafter until the disciplinary status ends.
2. The disciplinary isolation cells shall have the minimum furnishings and space specified in Title 24, California Code of Regulations. Occupants shall be issued clothing and bedding, except those inmates who engage in the destruction of bedding and clothing. FORMS OF DISCIPLINE – DEFINED:

1. Stopping Work Time: Before an inmate's work time can be stopped, the inmate's custody status must be reviewed. Unless an inmate is fully sentenced, work time cannot be stopped and good time cannot be taken.

DISCIPLINARY ISOLATION PROCEDURES:

Disciplinary Isolation and Disciplinary Isolation WITH DIET are two (2) separate and distinctly different levels of discipline.

A disciplinary diet is a separate form of punishment and must be administered separately from other forms of punishment. Disciplinary isolation and disciplinary diet will only be used as a form of punishment for serious Jail Rule violation(s), violent activity, or after repetitive misconduct that has not been corrected by lesser means. Disciplinary diet and disciplinary isolation are not a single form of punishment but two separate disciplinary tools.

The Classification Unit Sergeant will ensure the inmate is medically cleared prior to placement on a disciplinary diet.

This diet plan may be modified for medical reasons. This is the discipline diet sequence:
 - a. For the first three (3) days/seventy-two (72) hour period, the inmate will receive a disciplinary diet.
 - b. On the fourth (4) day, next twenty-four (24) hour period, the inmate will receive standard in-cell meals.

At no time will access to courts and legal counsel be denied for disciplinary measure.

REMOVAL FROM ALTERNATIVE SENTENCING PROGRAM:

If a person on the Alternative Sentencing program is removed and returned to custody, the returning deputy will write an IDR. These IDRs will be handled in the same manner as a regular IDR, with the same limitations imposed.

MALE AND FEMALES IN MSF:

MSF inmates are subject to the same rules of discipline that apply to Main Jail inmates, plus those associated with the MSF. All new MSF inmates are briefed on these rules by staff and given copies in both English and Spanish.

When a rule is violated, the MSF inmate may be given a verbal warning, additional work detail or an IDR. All rule violations are noted in JMS. A MSF inmate may be removed based on the severity of a single rule violation, or an accumulation of five (5) IDR's. Removal from the MSF for any rule violation is in addition to any discipline that might be imposed by the IDR Board.

CHAPTER 3 OPERATIONS	376. Community Release Programs	
Page 1 of 7	Revision Date: 1/2017	Review Date: 1/2019
Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: PC § 1208.2; P&P § 206		

I. PURPOSE:

Overcrowding in our jail facilities and court ordered population capacity limits have made it necessary to explore and implement various programs that provide alternative methods of serving a jail sentence.

II. POLICY:

It is the policy of Custody Operations to offer alternative sentencing programs to qualified applicants and to make every effort to accommodate alternative sentencing as recommended by the courts.

III. DEFINITIONS:

The Alternative Sentencing Bureau (ASB) operates two distinct community release programs; Electronic Monitoring (EM) and the Sheriff's Work Alternative Program (SWAP).

Electronic Monitoring (EM) – A home detention program in which inmates are allowed to serve sentences or are released in lieu of bail by means of confinement to his/her place of residence, while being monitored by electronic tracking devices. Applications for EM may be initiated by the applicant or may be mandated by ASB staff.

Sheriff's Work Alternative Program (SWAP) – A program in which inmates are allowed to serve sentences by means of performing community service work at an approved and designated work site.

IV. PROCEDURES:

EM AND SWAP:

Our first obligation in considering the applicant's eligibility to participate is to protect the safety and best interest of the community. We are also obligated to place the participant into program options that best suit the needs and obligations of Custody Operations and that best protect the restrictions and needs of the participant. To accomplish this, we depend upon various agencies and individuals such as judges, probation officers, attorneys, employers, and

Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	376. Community Release Programs

other interested persons for input and recommendations concerning each applicant; however, the Sheriff's Office reserves the right to determine who will be accepted to the program, and where within the program that individual will serve their time.

Once it is determined that an applicant qualifies for a community release program, the participant will be classified and assigned to an appropriate program option. A uniform program participation fee is charged according to each participant's ability to pay. A participant's acceptance or rejection from participating in either program option may not be made based upon the applicant's ability to pay.

Program assignment is based upon several classifying factors, which may include the participant's health (both physical and mental), work status, criminal history, age, current criminal charges, and any other factor considered significant by ASB staff.

All inmates in community release programs are subject to search and/or drug testing by any law enforcement agent, as designated by the Sheriff, at any time during their participation in a community release program. Participants will sign a search and seizure waiver as part of the booking process in order to participate in a community release program.

Participants serve in an assigned program at the discretion of ASB staff. Participants may be moved from one program to another when staff determines that circumstances justify such a move.

EM:

The EM program allows qualified individuals to continue their employment or continue their full-time education while completing their court ordered sentence. Participants are confined to their residence after work or during non-school hours. A Global Positioning System (GPS) electronic monitoring device may monitor each participant twenty-four (24) hours a day. Other electronic monitoring devices may be utilized as the technology in this field advances and changes. Offenders assigned to EM are subject to home visits by ASB program staff.

SWAP:

SWAP allows qualified individuals to serve their jail sentence performing general labor work at approved work sites within the community on a pre-approved schedule completed by ASB staff. Inmates will receive one (1) day of jail credit for each eight (8) hour workday completed. These inmates live at their place of residence and can arrange their SWAP work schedules to accommodate their personal schedules. Each inmate will be required to perform eight (8) hours of general labor at ASB. Staff will conduct periodic random work site checks.

Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	376. Community Release Programs	
Page: 3 of 7	Revision Date: 1/2017	Review Date: 1/2019

LOCATION OF RESIDENCE:

The participant's preferred place of residence will be within the County of Santa Barbara. Residences outside of Santa Barbara County will be reviewed on a case-by-case basis. Residences must be within the State of California. Residence may include residential treatment programs or temporary living situations determined on a case-by-case basis.

RESTRICTED EMPLOYMENT:

Certain types of employment may not be accepted. This may include employment that would require the handling of alcohol, firearms, and/or out of area travel. Self-employment may be restricted depending on the type of business. ASB staff will make all efforts to support a participant's employment situation in an attempt to help the participant successfully complete their sentence.

APPLICATION PROCESS:

Each application will be reviewed on its own merits and all of the circumstances of each case will be considered in determining whether an applicant will be accepted. In addition, the following process will be completed before determining acceptance to either EM or SWAP:

WRITTEN APPLICATION:

Pertinent information provided on the application must be verified as part of the review process. This information may include home address, relevant telephone numbers, employer, and other information as determined to be pertinent by ASB staff.

HISTORY:

A thorough criminal history check of each applicant is completed, as well as a review of the current charges and/or conviction status.

INTERVIEW PROCESS:

Applicants may be scheduled for an interview and are required to provide all necessary documentation concerning their current residence, employment and sentence status. All information provided during the interview is subject to verification.

Santa Barbara County Sheriff's Office
Custody Operations – Policy and Procedures Manual

CHAPTER 3 OPERATIONS	376. Community Release Programs	
Page: 4 of 7	Revision Date: 1/2017	Review Date: 1/2019

PROGRAM ACCEPTANCE:

The Sheriff has delegated final authority concerning acceptance or non-acceptance into the ASB programs to the Programs Lieutenant. An applicant who is denied acceptance to the program will be advised of the reason(s) for denial in writing. The courts may recommend placement for EM, however, it is up to the EM unit to determine appropriateness of the person recommended.

APPEAL PROCESS:

The appeal process, as described, is an administrative function, not a judicial process. As such, this process is not a hearing with a hearing officer and witnesses. If a denied applicant, wishes to refer the officer reviewing his/her appeal to a witness, they may provide contact information, and that witness will be contacted with their input, or that input may be submitted in writing with the appeal itself. The appeal shall be submitted in writing through the chain of command as listed below:

1. ASB Sergeant
2. Lieutenant

BOOKING PROCESS:

On the scheduled booking date, each participant's information will be entered in the Jail Management System (JMS). All participant's fingerprints and their photograph will be collected and entered into LiveScan. ASB staff opens and maintains an Inmate's Custody Record File on each active participant. This file includes the participant's original application, background information, original program agreement and any other pertinent information.

FEES:

A non-refundable application fee is required for applicants who are applying whom are not currently incarcerated. A daily maintenance fee is charged to each participant and is set by the sliding fee schedule, which has been approved by the Board of Supervisors. This fee is based on each applicant's ability to pay. All payments shall be made in exact cash, by cashier's check, Visa, MasterCard, or money order. Maintenance fees will be collected on a schedule as determined by ASB staff. All fees paid are non-refundable. An exception may be made if the court orders a change in the original sentence or by the Unit Lieutenant or designee in exceptional circumstances.

COUNTS:

Computer counts are conducted both on the JMS and with the monitoring system at the start of each workday and at the end of each workday. Additional counts may also be conducted throughout the day as necessary. Counts are checked against each other and compared to the booking log maintained in each ASB office to verify the number of participants on each program.

FIELD OPERATIONS:

Field operations includes field checks pertaining to inmates throughout the community. Field checks may be randomly conducted. The purpose of the field check is to confirm compliance with the program rules as well as ensure the safety of the community. Each contact will be logged on the field check card noting the date, time and the deputy who conducted the check. The field check deputy should make every effort to be discrete and unobtrusive so as not to affect the work site operation. A field check may be conducted at the participant's place of residence, employment or any public location. Field supervision enhances the community's confidence in the program by demonstrating that custody staff is monitoring the behavior and activities of participants. Field checks will be conducted as determined necessary by ASB staff to ensure that EM equipment is functioning properly and that participants are adhering to program rules.

PROGRAM RULES VIOLATIONS:

Violation statuses for each EM participant will be reviewed regularly; and ASB staff shall address all violations appropriately. Immediate staff notification shall be required for all bracelet strap tamper and removal alerts. When this occurs, the ASB deputy will assess the situation and take the necessary corrective action. Program rule violations may result in a reduction of approved privileges, criminal charges, removal from the program, and/or inmate disciplinary action.

INTERNAL JAIL DISCIPLINARY ACTIONS (Inmate Disciplinary Report):

Some program violations, citations, or re-arrests for minor violations of the law may be addressed by the use of the Inmate Disciplinary Report (IDR), as described in section 363. Inmate Discipline. In all cases, the inmate is entitled to and shall receive all due process considerations.

INCIDENT NOTIFICATION:

Medical costs associated with continued treatment are the sole responsibility of the participant. Medical treatments for injuries or illness that occur while on in-home monitoring are the sole responsibility of the participant.

Pursuant to department procedures and applicable state law, Santa Barbara County Worker's Compensation covers participants in SWAP, who are injured on a County SWAP work site. Authorized work sites not covered under the County of Santa Barbara shall have a signed Memorandum of Understanding (MOU) on file between the organization and the Sheriff's Office. This MOU will specify the guidelines for handling workers compensation claims for injuries that arise out of, or occur during a time that the inmate was performing work under the direction of the respective organization.

ASB STAFF POLICY:

FIREARMS PROFICIENCY STANDARDS:

ASB staff has a duty to respond to violations and the potential exists that they may be required to perform an enforcement action or to retake a participant into custody during any field operation. Therefore, it is the policy of Custody Operations that all deputies assigned to the ASB must meet the minimum firearms quarterly qualification and proficiency standards as

required by the Training Bureau. The Division Commander, for legitimate operational concerns, may grant a temporary exception.

Keys granting access to the building and offices are issued to each employee assigned to that location. Each employee is accountable for the key issued to him/her. Keys used in both offices will be secured and kept out of plain view when staff is not in the office. Any loss or inability to account for all keys will be reported immediately through the ASB chain of command.

This person will be authorized to enter and meet with inmates who have issues or concerns they believe have not been addressed or resolved through the established forums of communication available such as speaking with a module deputy, shift supervisor, submitting an Inmate Request form, or Inmate Grievance form. As a non-biased third party, the Ombudsman can provide guidance to the inmate and/or the facility administration.

A secondary purpose is to assist inmates with non-litigation based communication with public defenders, or other defense counsel, probation/parole officers, or other appropriate public agencies.

II. POLICY:

The Ombudsman is to address complaints with regard to the conditions, restrictions or nature of their confinement. The Ombudsman is prohibited from performing special requests or favors such as, placing money in an inmates jail account, passing messages to family members, friends and or other inmates. Additionally, the Ombudsman is prohibited from giving inmates any personal items or financial assistance.

The Ombudsman will exercise discretion with regard to all information gathered pertaining to inmate interviews and will use such information only to further resolve inmate complaints.

Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: N/A		

Established in 1960, the Medium Security Facility (MSF) houses both sentenced and pre-adjudicated inmates. The MSF houses male and female inmates in separate areas of the facility. Inmates housed at the MSF are screened and must pass specific classification and medical criteria prior to placement. Inmates assigned to the MSF are expected to follow an established set of rules and regulations. The MSF affords inmates the opportunity to work on several different work crews, both in and out of the facility. In addition, Inmate Services provides several educational and self-enhancement programs to the inmates. These programs and work assignments allow inmates to improve themselves, learn vocational and life skills, and serve the community.

The Classification Unit and Health Services provider are responsible for screening and approving inmates for housing at the MSF. Eligibility is based on numerous factors, some of which include the following:

1. Current charges and recent criminal history;
2. Minimal history of mental health problems;
3. Must be medically cleared; and
4. In custody behavior.

Exceptions to the above listed criteria will be reviewed and approved by both the Classification Unit Sergeant and MSF Sergeant. Inmates may qualify for the MSF sentenced barracks if they have non-sentenced cases pending.

Upon being housed at the MSF, inmates receive an extensive briefing and may be given work assignments. Inmates are also notified about any other programs available to them.

Page 1 of 2	Revision Date: 01/2017	Review Date: 01/2019
Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: P&P § 300		

I. PURPOSE:

The purpose of the policy is to ensure inmate counts and perimeter checks are conducted in a timely and accurate manner at the Medium Security Facility (MSF).

II. POLICY:

Custody Operations shall conduct two (2) separate counts: the formal or scheduled count, conducted twice in each twenty-four (24) hour period, and the unscheduled or informal count, which can be conducted at any time.

III. DEFINITIONS:

Formal Count – At this time each inmate will be identified by armband and accounted for using the housing roster. Each shift will be responsible for conducting a formal count. A positive verification must be made that all inmates are present and accounted for.

Informal Count – This count is conducted at various times throughout a twenty-four (24) hour period, as often as possible. An informal count is performed by conducting a walk-through of the facility while observing and counting the inmates.

Perimeter Check – This is a physical check conducted by walking the perimeter of the MSF to check for any security related issues.

IV. PROCEDURES:

FORMAL COUNTS:

This count will take place at 0600 hours and 2000 hours, and will consist of a verification of inmates listed on the MSF bunk roster in the JMS database to each inmate's individual armband. The inmates will line up in front of their assigned bunks and the deputies will check off each accounted inmate on the MSF bunk roster list.

The deputy completing the formal count is responsible for; viewing the armbands, checking the inmates for facial and/or hand injuries consistent with an altercation and putting a check

mark next to each inmate's name. The MSF bunk roster list will then be given to the MSF Desk Deputy stationed inside the MSF Control Room.

The Desk Deputy is responsible for verifying and accounting for all inmates not checked off on the list. The JMS database will be compared to the MSF bunk roster prior to midnight daily. Any discrepancies will be reported to the shift supervisor and resolved in a timely fashion.

The Control Room Deputy is responsible for maintaining a constant running account of all inmates coming and going from the facility.

INFORMAL COUNT:

Informal count will be conducted once per shift beginning at 0001 on each day. When the deputy announces the count, all inmates will go immediately to their bunks. During the entire count, inmates will sit or lay on their bunks without talking. This count will be a verification of the number of inmates within the facility compared to the numbers listed in JMS.

RANDOM COUNT:

In addition to the planned, scheduled and informal counts, random counts will take place; once per shift and will consist of population number count verification. When these counts are called, any inmates who are using the telephone, toilet, showering or receiving haircuts are permitted to continue their activity but must remain in their present location until count is verified.

PERIMETER CHECKS:

Perimeter fences, doors, gates, and motion alarm systems will be checked twice per shift. Staff will visually inspect the fence line for tampering or security issues. During this check, staff will physically push on each separate alarmed section of the fencing and open all outer doors to verify the alarm system is working properly.

DOCUMENTATION:

All counts and perimeter checks will be accurately noted in the MSF recap. The original log will be placed in the Main Jail Recap at 2400 hours with a copy retained at the MSF.

Issued By:  Chief Custody Deputy	Issued Date:	Effective Date:
Related Orders: P&P § 301		

I. PURPOSE:

This policy is to ensure a written classification plan is implemented to properly assign inmates to the Court Holding Facilities' (CHF) cells and the appropriate bus seating during transport to any facility according to gender, age, criminal sophistication, seriousness of crime charged, physical or mental health needs, assaultive/non-assaultive behavior and other criteria, which will provide safety and security for inmates, staff and the facility.

II. POLICY:

Prior to transport or holding of inmates in satellite facilities the classification of inmates should be in accordance and compliance with applicable laws and Title 15, California Code of Regulations and 301. Inmate Classification.

Transport assignments and CHF decisions should be supported by all available information, such as:

1. Inmate Alerts in the JMS system;
2. Inmate Housing;
3. Prior knowledge of the inmate; and
4. Any other information available to provide for the safety of staff, facility and other inmates.

III. DEFINITIONS:

IV. PROCEDURES:

regarding their classification or medical condition. The second list is a condensed version with no picture or inmate information. This shorter list is used for keeping track of remands and inmate counts while at the CHF.

Classification is a necessary factor. Bus configurations along with CHF capacities will sometimes impact the ability to segregate the inmates. Absent exigent circumstances, inmates will be placed within their respective classification levels.

A bus/van configuration map will be utilized for the loading of inmates on to the buses and or vans. Generally, inmates will be transported and held based on their classification.

Prior to placing an inmate in a vehicle or CHF, deputies will review all pertinent information and speak with the inmates regarding compatibility issues.

I. PURPOSE:

The purpose of this policy is to establish and provide guidelines when circumstances warrant the Transportation Unit deputy to take action during an emergency or unusual event during the performance of his/her duties. Documentation of such events is paramount no matter how slight or insignificant it may seem at the time of occurrence.

II. POLICY:

It is the policy of Custody Operations that Custody Deputies, while driving County vehicles, should not undertake any law enforcement actions other than those actions and circumstances arising directly out of maintaining custody of inmates. This includes related tasks while transporting inmates in a Transportation Unit vehicle. The primary responsibility of Transportation Unit deputies is the safety and security of the inmates while being transported.

Inmates who are transported out of a closed security environment are subjected to many uncontrolled factors that may increase or subject the Transportation Unit to added liability. Documentation of such event(s) is paramount, no matter how slight or insignificant it may seem at the time of occurrence.

Should the deputy deem immediate action is necessary to protect life and/or property he/she will immediately request back up via the Dispatch Center. The deputy shall take the appropriate action keeping in mind his/her primary responsibility and all department policies and procedures. The deputy shall stay on scene until relieved by a Sheriff's Deputy and/or detective.
